

U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division (H7505C)
101 "M" St., S.W.
Washington, D.C. 20460

EPA Reg. Number:

6959-88

Date of Issuance:

JAN 26 1994

NOTICE OF PESTICIDE:
 x Registration
 Reregistration

Term of Issuance:
Conditional

Name of Pesticide Product:

Cessco GP General Purpose Insecticide

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Mr. William L. Ayer
Cessco, Inc.
3609A River Road
Johns Island, SC 29455

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.

2. Make the following label changes:

- a. Revise the EPA Registration Number to read, "EPA Reg. No. 6959-88."
- b. Delete all references for use in poultry processing plants until you receive written authorization to do so from USDA. To obtain approval, write to:

Mr. John Damare
U.S. Dept. of Agriculture
Food Safety & Inspection Service
Building 306, BARC-East
Beltsville, MD 20705

Signature of Approving Official:

J. Damare

Date:

1/26/94

SEE PAGE 2

3. Submit two copies of the revised final printed label for the record.

As a reminder, as stated in 40 CFR 156.10(2)(ii)(A), label lettering must be in 6-point or larger type.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely,

Robert S. Brennis
Acting Product Manager 10
Insecticide & Rodenticide Branch
Registration Division (7505C)

ACCEPTED with COMMENTS in EPA Letter Dated
1-800-476-3666
JAN 26 1994

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide registered under EPA Reg. No. 6959-98

DIRECTIONS FOR USE (CONTINUED)

Hold container upright with nozzle away from you. Press valve down and spray as directed. To avoid possible staining of fabrics or surfaces, do not spray at close range.

Calculate the cubic feet of the area to be treated. close all doors and windows. Pointing nozzle upward, direct the aerosol mist to all parts of the room, especially around windows and other light sources which attract these insects. Apply spray continuously at rate of one second per 1000 cubic feet of space. Keep area closed for fifteen minutes after each treatment. Do not remain in treated area. Ventilate room when treatment is completed. Sweep up and destroy fallen insects. Repeat treatment as necessary. Area treatments can be made when animals are in lounging barns or holding pens.

Out of Doors: For temporary protection of mosquitoes and flies, spray along ground and around bushes and trees. Do not spray ornamental shrubbery. Frequent repeated applications may be necessary.

MUD DAUBER AND WASP NESTS: Spray aerosol directly on insects and their nests from approximately 2 feet distance. Applications should be made in late evening when insects are at rest. Spray liberally into hiding and breeding places contacting as many insects as possible. Repeat treatments as necessary.

CHOCOLATE MOTHS, CARPET BEETLES, DRUG STORE BEETLES IN EXPOSED ADULT LARVAE STAGES: Contact as many insects as possible when treating infested areas such as cracks, crevices, packaged store products, machinery, dark secluded areas. Spray 10 to 20 seconds per 100 square feet of floor space. Repeat weekly or as insects appear.

FEAS IN BUILDINGS: Close windows and doors. Hold aerosol 36" above floor and direct fog toward floor and lower walls at a rate of 10 seconds per 100 square feet, making sure that all floor, sofa, chair surfaces are contacted. Remove and destroy pet's old bedding. Thoroughly treat area and allow to dry before replacing. Repeat as necessary. Also treat dogs and cats with a registered flea control product before allowing them to enter treated area.

ROACHES, *SPIDERS, WATERBUGS, ANTS, SILVERFISH, *CRICKETS: *Hold aerosol close to cracks and fog directly into them, contacting as many insects as possible. Apply liberally to all possible hiding places behind baseboards, *shelves, cabinets, coffee makers, *traps, *boxes, *holes. Repeat all treatments as necessary.
