 <p style="text-align: center;">U.S. ENVIRONMENTAL PROTECTION AGENCY Office of Pesticide Programs Registration Division (H7505C) 401 "M" St., S.W. Washington, D.C. 20460</p> <p style="text-align: center;"><b>NOTICE OF PESTICIDE:</b> <u>  x  </u> Registration <u>    </u> Reregistration</p> <p>(under FIFRA, as amended)</p>	EPA Reg. Number: <b>6959-92</b>	Date of Issuance: <b>JAN 24 2000</b>
	Term of Issuance: <b>Conditional</b>	
	Name of Pesticide Product: <b>Cessco Fire Ant and Crawling Insect Killer</b>	
Name and Address of Registrant (include ZIP Code):  <b>Cessco Inc. 3609A River Road Johns Island, SC 29455</b>		
<p><b>Note:</b> Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.</p> <p>On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.</p> <p>Registration in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.</p> <p style="text-align: center;">This product is <u>conditionally</u> registered in accordance with FIFRA sec. 3(c)(7)(A), provided you:</p> <ol style="list-style-type: none"> <li>1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.</li> <li>2. Make the following label changes: <ol style="list-style-type: none"> <li>a. Revise the EPA Registration Number to read, "EPA Reg. No. 6959-92".</li> <li>b. EPA will issue a PR Notice revising first aid statements in the near future. The following are the revised statements that will be required for products placed in category III and above. You may wish to incorporate these statements on your labeling at this time :</li> </ol> </li> </ol>		
Signature of Approving Official:   <b>George T. LaRocca, Product Manager 13</b>	Date:  <b>JAN 24 2000</b>	

SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes. Call a poison control center for treatment advice. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice."

Also, add the following statement near the first aid statements: "Have the product container or label with you when calling a poison control center or doctor or going for treatment."

EPA recommends that these statements be boxed and bulleted to present the information in a clear, easy-to-read fashion.

Further, we advise that you change the 6th sentence under PRECAUTIONARY STATEMENTS to read: "Do not apply where spray may settle onto food or utensils."

- c. Move the DIRECTIONS FOR USE for FIRE ANTS from the GENERAL INFORMATION section to either before or after the DIRECTIONS FOR USE for COCKROACHES.
- d. Under the DIRECTIONS FOR USE on "ANTS", delete the word "freely" so the phrase reads as follows: "Spray ant trails and around doors and windows . . . ". Similarly, delete the word "freely" from the sentence, "Break apart accessible nests...". Instructions to spray "freely" may result in over-application of product.
- e. The retreatment statements should include a maximum frequency of application, such as: ". . . but not more than \_\_\_ times per \_\_\_."
- f. Under "BROWN DOG TICKS and FLEAS IN BUILDINGS", insert the following: "Do not spray animals or humans, or apply to animal feed or watering equipment."
- g. Under "TERMITES, CARPENTER ANTS AND CARPENTER BEES" add the following paragraph: "For termites, the purpose of such applications is to kill workers or winged forms which may be present in the treated areas at the time of application." "Not recommended as sole protection against termites. For active infestations, get a professional inspection."

- h. On the front panel under the product name add: "Only for Use and Storage by Commercial Applicators".
3. Submit two (2) copies of your final printed label before you release the product for shipment. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product bearing amended labeling constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records.

If you have any questions regarding this action, please contact Linda Werrell of my team at (703) 308-8033. A stamped copy of the label is enclosed for your records.

Sincerely

  
George T. LaRocca

**PRECAUTIONARY STATEMENTS**  
Hazards To Humans & Domestic Animals  
**CAUTION**

Avoid contact with skin or clothing. Wash thoroughly with soap and water after handling.

**Environmental Hazards**

This product is toxic to fish. Do not apply directly to water. Do not contaminate water by disposal of wastes.

**Physical Or Chemical Hazards**

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Do not use this product in or on electrical equipment due to the possibility of shock hazard.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal.  
**Storage:** Do not store near heat or open flame. Store in cool dry place away from children.  
**Container Disposal:** Replace cap, wrap container in several layers of newspaper and discard in trash. Do not incinerate or puncture. Can may be disposed of with other recyclables where local law permits.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**SHAKE WELL BEFORE USING**

**GENERAL INFORMATION:** Cessco Fire Ant & Crawling Insect Killer provides effective control of pests in and on buildings and structures and their immediate surroundings and on modes of transport.

Permitted areas of use include, but are not limited to: apartment buildings, homes, hotels, hospitals, nursing homes, schools, industrial buildings, laboratories, mausoleums, private residences, utilities, and in non-food/feed areas of food/feed handling establishments, and on: vessels, rail cars, buses, trucks and trailers.

Do not use in food/feed areas of food/feed handling establishments, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed or facility is in operation. Serving areas are areas where prepared foods are served such as dining rooms but excluding areas where foods may be prepared or held.

In home, cover all food handling surfaces and cover or remove all eating and cooking utensils or wash thoroughly after treatment.

**FIRE ANTS:** To treat mounds, use soil injector. To maximize spray distribution, insert injector into the mound full length if possible. Inject the mound at 3-6 sites at a rate of 5-10 seconds spray per site. For very large mounds (over 36 inches in diameter), increase the number of injection sites. Space injection sites in a circular pattern on the mound surface with one site in the center. To quiet active ants on mound surface, sweep surface with spray from a distance of 18 inches. For best results, apply in cool weather or in early morning or late evening hours. Treat new mounds as they appear.

Cessco Fire Ant & Crawling Insect Killer may be used as a crack and crevice treatment or as a spot application in non-food/feed areas. All areas where insects hide or through which insects may enter should be treated.

For use in non-food areas such as garbage rooms, lavatories, floor drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling).

Hospital and/or nursing home patients must be removed from their rooms while treatment is being applied and must not be allowed to return until all treated surfaces have dried. School classrooms must be treated only when students are not present, and all treated surfaces must be dry before the students are allowed to return.

**SURFACE SPRAY APPLICATION:** Hold container upright with nozzle away from you. Press valve down and spray as directed. Spray surface until slightly wet (at a rate of 4 ounces product to treat approximately 25 square feet of surface area).

**CRACK & CREVICE INJECTION:** Remove protective cap, hold container upright and attach injection tube for injecting into cracks and crevices where insects may be hiding, living and breeding. Place

**FIRE ANT & CRAWLING INSECT KILLER**

*Provides Quick Killing Action and Residual Control*

An indoor/outdoor broad spectrum insecticide aerosol that is highly effective against Fire Ants and other crawling insects such as Ants, Bees, Carpenter Ants, Carpet Beetles, Centipedes, Cockroaches, Crickets, Earwigs, Firebrats, Fleas, Flour Beetles, Grain Beetles, Ground Beetles, Millipedes, Mole Crickets, Moths, Pillbugs, Scorpions, Silverfish, Sowbugs, Spiders, Termites, Ticks and other similar crawling insects.

Not for use in USDA inspected meat and poultry plants.

**ACTIVE INGREDIENTS:**

- \*Tetramethrin ..... 0.20%
  - \*\*Permethrin ..... 0.50%
  - \*\*\*Piperonyl Butoxide Technical ..... 1.00%
- INERT INGREDIENTS:** ..... 98.30%
- 100.00%

- \*1-cyclohexene-1,2-dicarboximidomethyl 2,2-dimethyl-3-(2-methyl-propenyl) cyclopropanecarboxylate.
- \*\*[3-phenoxyphenyl)methyl(+)-cis/trans-3-(2,2-dichloroethenyl) 2,2-dimethylcyclopropanecarboxylate. Cis/trans ratio:min. 35% (+/-) cis and max. 65% (+/-)trans.
- \*\*\*Equivalent to min. 0.8% (butylcarbityl)(6-propylpiperonyl) ether and 0.2% related compounds.

**KEEP OUT OF REACH OF CHILDREN**  
**CAUTION**  
SEE SIDE PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS

**STATEMENT OF PRACTICAL TREATMENTS**

**If Swallowed:** Call a physician or Poison Control Center.

Do not induce vomiting.

**If Inhaled:** Remove victim to fresh air. Apply artificial respiration if indicated.

**If In Eyes:** Flush with plenty of water. If irritation persists get medical attention.

**If on Skin or Clothing:** Remove contaminated clothing; wash skin with soap and warm water. Get medical attention if irritation persists.

EPA REG. NO.  
EPA EST. NO.

ACCEPTED MANUFACTURED BY:  
WITH COMMENTS CESSCO INC.  
In EPA Letter Date 1999A RIVER ROAD  
JOHNS ISLAND, SC 29455  
800-476-3666

JAN 24 2000

Registered Insecticide,  
under the Insecticide Act  
of 1947 and the pesticide  
labeling Act of 1952.  
EPA Reg. No. 6959-92

injection tip 1/2 inch into cracks, crevices, holes and other small openings where insects may be a problem. Release a one-second spray per spot. In serious infestations, if possible, place spots approximately 12 inches apart. In light infestations or for preventative treatment, place spots approximately three feet apart. In long running cracks, move the injector tip along the crack while spraying. Move at the rate of one linear foot per second in heavy infestations and three feet per second in light infestations. See the additional directions below for effective control of specified insects.

**COCKROACHES** (including adult and immature stages of both non-resistant and organophosphate and carbamate resistant strains), **ANTS**, **BOOKLICE**, **BOXELDER BUGS**, **CRICKETS**, **DERMESTIDS**, **FIREBRATS**, **FLEAS**, **SILVERFISH**, **TICKS** AND **SOWBUGS:** Apply as a spot or crack and crevice treatment. Apply thoroughly to all areas where these pests crawl and hide, especially in cracks and crevices, and hidden surfaces around sinks and storage areas, behind baseboards, around doors and windows, behind and under refrigerators, cabinets, sinks and stoves, the underside of shelves, drawers, bookcases and in similar areas.....Repeat as necessary.

**ANTS:** Spray freely around ant trails, doors and windows and other places where ants enter premises, around nests hidden under steps, brickwork, concrete, etc. Break apart accessible nests and spray freely on and around debris. Repeat as necessary.

**CARPENTER ANTS:** For effective control, locate and treat nests and surrounding areas. Apply around doors and windows and other places where ants enter premises and where they crawl and hide. Inject into wall voids and infested wood through existing openings or newly drilled small holes.

**BROWN DOG TICKS AND FLEAS IN BUILDINGS:** Apply to infested areas such as pet beds and resting quarters, nearby cracks and crevices, under the edges of rugs and floor coverings, between and under cushions of upholstered furniture and other areas where these pests may be present. Old bedding of pets should be removed and replaced with clean fresh bedding after treatment of pet areas. Do not apply directly on animals.

**SPIDERS:** Apply along and behind baseboards, to window and door frames, corners, pipes, storage localities, attics, crawl spaces and other areas over which these pests may crawl.

**CENTIPEDES, EARWIGS, GROUND BEETLES, MILLPEDES, MOLE CRICKETS, PILLBUGS, SOWBUGS, SCORPIONS AND TICKS:** Apply around doors and windows and other places where these pests may enter premises. Treat baseboards, storage areas and other locations where these pests are found.

**PANTRY PESTS - GRAIN BEETLES (RUSTY, MERCHANT AND SAWTOOTHED), FLOUR BEETLES (RED AND CONFUSED), CHOCOLATE MOTHS, CIGARETTE BEETLES, CLOVER MITES, CLUSTER FLIES, DRUGSTORE BEETLES, ELMLEAF BEETLES, RICE WEEVILS, LESSER GRAIN BORERS, SPIDER BEETLES AND TOBACCO MOTHS:** Treat exposed stages. Remove all foodstuffs, utensils and shelf paper from area to be treated. Discard used shelf paper and any infested foodstuffs. Apply spray to shelves and in cracks and crevices behind and under cupboard and cabinets. Allow spray to dry prior to replacement of food and utensils.

**CARPET BEETLES (Black, Furniture and Varied):** Spray on and under edges of floor coverings, under rugs and furniture and in closets or other localities where these insects are found.

**WEBBING CLOTHES MOTHS:** Use this product as a crack and crevice treatment in closets and other storage areas where these pests are found. This is an adjunct treatment and will not control moth larvae already on clothes. Do not apply to clothing.

**PESTS ON OUTSIDE SURFACES OF BUILDINGS:** For control of building infestation due to Ants, Cover Mites, Crickets, Earwigs, Millipedes and Sowbugs (Pillbugs). Spray foundation of building where insects are active and may find entrance up to a height of 2 to 3 feet. Apply as a residual spray to outside surfaces of buildings where insects tend to congregate. Spray areas include (but are not limited to) screens, window frames, eaves, porches, patios, garages and refuse dumps. Repeat treatment as necessary.

**Localized Treatment of Wood-infesting Insects:** Beetles and Borers (such as the following families: Anobiidae, Bostrichidae, Buprestidae, Cerambycidae, Lyctidae, Oederinae, Sesiidae), Carpenter Bees, Termites and Wood Wasps: Locate area of infestation and/or insect tunnels and galleries (using a crack & crevice tip, spray into tunnels, galleries and inaccessible closed voids. In infested areas, small holes should be drilled eight to ten inches apart to insure thorough insecticide gallery treatment. Be sure not to contact electrical wiring or plumbing when treating. For Carpenter Bees, seal the entrance holes with small pieces of stainless steel wool after application.

**NOTICE:** Buyer assumes all responsibility for safety and use not in accordance with directions.
