PRECAUTIONARY STATEMENTS
Hazards To Human & Domestic Animals

CAUTION

Avoid contact with skin or clothing. Wash thoroughly with soap and water after handling.

Environmental Hazards

This product is toxic to fish. Do not apply directly to water. Do not contaminate water by disposal of wastes. Do not apply where spray may settle onto food or utensils.

Physical Or Chemical Hazards

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Do not use this product in or on electrical equipment due to the possibility of shock hazard.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage of disposal. **STORAGE:** Do not store near heat or open flame. Store in cool dry area away from children.

CONTAINER DISPOSAL: Replace cap, wrap container in several layers of newspaper and discard in trash. Do not incinerate or puncture. Can may be disposed of with other recyclables where local law permits.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USING

GENERAL INFORMATION: Crawling Insect Killer provides effective control of pests in and on buildings and structures and their immediate surroundings and on modes of transport.

Permitted areas of use include, apartment buildings, homes, hotels, hospitals, nursing homes, schools, industrial buildings, laboratories, museums, private residences, utilities, and in non-food/feed areas of food/feed handling establishments, and on: vessels, rail cars, buses, trucks and trailers.

Do not use in food/feed areas of food/feed handling establishments, restaurants or other areas where food is commercially prepared or processed. Do not use in eating areas while food is exposed or facility is in operation. Serving areas are areas where prepared foods are served such as dining rooms but excluding areas where foods may be prepared or held. In the home, cover all food handling surfaces and cover or remove all food and cooking utensils or wash thoroughly after treatment.

For use in non-food areas such as garbage rooms, lavatories, floor drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning and bottling).

Hospital and/or nursing home patients must be removed from their rooms while treatment is being applied and must not be allowed to return until all treated surfaces have dried. School classrooms must be treated only when students are not present, and all treated surfaces must be dry before the students are allowed to return.

SURFACE SPRAY APPLICATION: Hold container upright with nozzle away from you. Press valve down and spray as directed. Spray surface until slightly wet (at a rate of 4 ounces product to treat approximately 25 square feet of surface area).

CRACK & CREVICE INJECTION: Remove protective cap, hold container upright and attach injection tube for injecting into cracks and crevices where insects may be hiding, living and breeding. Place injection tip 1/8 inch into cracks, crevices, holes and other small openings where insects may be a problem. Release a one-second spray per spot. In serious infestations, if possible, place spots approximately 12 inches apart. In light infestations or for preventive treatment, place spots approximately three feet apart. In long running cracks, move the injector tip along the crack while spraying. Move at the rate of one linear foot per second in heavy infestations and three feet per second in light infestations. See the additional directions below for effective control of specified insects.

Cessco

CRAWLING INSECT KILLER

PROVIDES QUICK KILLING ACTION

Only for use and storage by commercial applicators.

An indoor outdoor broad spectrum insecticide aerosol that is highly effective against crawling insects such as Ants, Bees, Carpenter Ants, Carpet Beetles, Centipedes, Cockroaches, Crickets, Earwigs, Firebrats, Fleas, Flour Beetles, Grain Beetles, Ground Beetles, Millipedes, Mole Crickets, Moths, Pillbugs, Silverfish, Sowbugs, Spiders, termites, Ticks and other similar crawling insects.

Not for use in Federally inspected meat and poultry plants.

ACTIVE INGREDIENTS:

*Tetramethrin.....	0.20%
**Permethrin.....	0.50%
***Piperonyl Butoxide Technical.....	1.00%
INERT INGREDIENTS:.....	98.30%
	100.00%

*1-cyclohexane-1,2-dicarboximidomethyl 2,2-dimethyl-3-(2-methyl-propenyl) cyclopropanecarboxylate.
**3-phenoxyphenylmethyl(+)-cis/trans-3-(2,2-dichloroethoxy) 2,2-dimethylcyclopropanecarboxylate. Cis:trans ratio: min. 35% (+) cis and max. 65% (+)-trans.
***Equivalent to min. 0.8% (butylcarbyl)(6-propylpiperonyl) ether and 0.2% related compounds.

KEEP OUT OF REACH OF CHILDREN
CAUTION
SEE SIDE PANEL FOR ADDITIONAL
PRECAUTIONARY STATEMENTS

STATEMENT OF PRACTICAL TREATMENTS

- If Swallowed: Call a Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor.
- If Inhaled: Move victim to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.
- If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes. Call a poison control center or doctor for further treatment advice.
- If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for further treatment advice.
- Have the product container or label with you when calling a poison control center or doctor for treatment.

NET WEIGHT: 16 Oz. (454 grams)
EPA REG. NO. 0050-93
EPA EST. NO. 0050SC-1
MANUFACTURED BY: CESSCO INC.
3000A RIVER ROAD
JOHNS ISLAND, SC 29453

1-800-476-3000

Crawling Insect Killer may be used as a crack and crevice treatment or as a spot application in non-food/feed areas. All areas where insects hide or through which insects may enter should be treated.

COCKROACHES (including adult and immature stages of both nonresistant and organophosphate and carbamate resistant strains), **ANTS**, **BOOKLICE**, **BOXELDER BUGS**, **CRICKETS**, **DERMESTIDS**, **FIREBRATS**, **FLEAS**, **SILVERFISH**, **TICKS** AND **SOWBUGS**: Apply as a spot or crack and crevice treatment. Apply to areas where these pests crawl and hide, especially in hidden areas around sinks and storage areas, behind baseboards, around doors and windows, behind and under refrigerators, cabinets, sinks and stoves, the underside of shelves, drawers, bookcases and in similar areas.

ANTS: Spray ant trail in and around doors and windows and other places where ants enter premises, around nests hidden under steps, brickwork, concrete, etc. Break apart accessible nests and spray on and around debris.

CARPENTER ANTS: For effective control, locate and treat nests and surrounding areas. Apply around doors and windows and other places where ants enter premises and where they crawl and hide. Inject into wall voids and infested wood through existing openings or newly drilled small holes.

BROWN DOG TICKS AND **FLEAS** IN BUILDINGS: Remove pets prior to treatment. Apply to infested areas such as pet beds and resting quarters, nearby cracks and crevices, under the edges of rugs and floor coverings, between and under cushions of upholstered furniture and other areas where these pests may be present. Old bedding of pets should be removed and replaced with clean fresh bedding after treatment of pet areas. Do not apply directly on animals or humans, or apply to animal feed or watering equipment. For best results, pets should be treated with appropriate flea and/or tick control product registered for use on pets. Allow spray to dry prior to reentry of treatment area.

SPIDERS: Apply along and behind baseboards, to window and door frames, corners, pipes, storage localities, attics, crawl spaces and other areas over which these pests may crawl.

CENTIPEDES, **EARWIGS**, **GROUND BEETLES**, **MILLIPEDES**, **MOLE CRICKETS**, **PILLBUGS**, **SOWBUGS**, **SCORPIONS** AND **TICKS**: Apply around doors and windows and other places where these pests may enter premises. Treat baseboards, storage areas and other locations where these pests are found.

PANTRY PESTS - GRAIN BEETLES (RUSTY, MERCHANT AND SAWTOOTHED), **FLOUR BEETLES (RED AND CONFUSED)**, **CHOCOLATE MOTHS**, **CIGARETTE BEETLES**, **CLOVER MITES**, **CLUSTER FLIES**, **DRUGSTORE BEETLES**, **ELM LEAF BEETLES**, **RICE WEEVILS**, **LESSER GRAIN BORERS**, **SPIDER BEETLES** AND **TOBACCO MOTHS**: Treat exposed stages. Remove all foodstuffs, utensils and shelf paper from area to be treated. Discard used shelf paper and any infested foodstuffs. Apply spray to shelves and in cracks and crevices behind and under cupboards and cabinets. Allow spray to dry prior to replacement of food and utensils.

CARPET BEETLES (Black, Furniture and Varied): Spray on and under edges of floor coverings, under rugs and furniture and in closets or other localities where these insects are found.

PESTS ON OUTSIDE SURFACES OF BUILDINGS: For control of building infestation due to Ants, Clover Mites, Crickets, Earwigs, Millipedes and Sowbugs (Pillbugs). Spray foundation of building where insects tend to congregate. Spray areas include screens, window frames, eaves, porches, patios, garages and refuse dumps.

NOTICE: Buyer assumes a responsibility for safety and use not in accordance with directions.

NET WEIGHT: 16 Oz. (454 grams)
EPA REG. NO. 6959-93
EPA EST. NO. 6959SC-1
MANUFACTURED BY: CESSCO INC.
3609A RIVER ROAD
JOHNS ISLAND, SC 29455
1-800-476-3666

Crawling Insect Killer may be used as a crack and crevice treatment or as a spot application in non-food/feed areas. All areas where insects hide or through which insects may enter should be treated.

COCKROACHES (including adult and immature stages of both non-resistant and organophosphate and carbamate resistant strains), **ANTS**, **BOOKLICE**, **BOXELDER BUGS**, **CRICKETS**, **DERMESTIDS**, **FIREBRATS**, **FLEAS**, **SILVERFISH**, **TICKS** AND **SOWBUGS**: Apply as a spot or crack and crevice treatment. Apply to areas where these pests crawl and hide, especially in hidden areas around sinks and storage areas, behind baseboards, around doors and windows, behind and under refrigerators, cabinets, sinks and stoves, the underside of shelves, drawers, bookcases and in similar areas.

ANTS: Spray ant trail is and around doors and windows and other places where ants enter premises, around nests hidden under steps, brickwork, concrete, etc. Break apart accessible nests and spray on and around debris.

CARPENTER ANTS: For effective control, locate and treat nests and surrounding areas. Apply around doors and windows and other places where ants enter premises and where they crawl and hide. Inject into wall voids and infested wood through existing openings or newly drilled small holes.

BROWN DOG TICKS AND FLEAS IN BUILDINGS: Remove pets prior to treatment. Apply to infested areas such as pet beds and resting quarters, nearby cracks and crevices, under the edges of rugs and floor coverings, between and under cushions of upholstered furniture and other areas where these pests may be present. Old bedding of pets should be removed and replaced with clean fresh bedding after treatment of pet areas. Do not apply directly on animals or humans, or apply to animal feed or watering equipment. For best results, pets should be treated with appropriate flea and/or tick control product registered for use on pets. Allow spray to dry prior to reentry of treatment area.

SPIDERS: Apply along and behind baseboards, to window and door frames, corners, pipes, storage localities, attics, crawl spaces and other areas over which these pests may crawl.

CENTIPEDES, **EARWIGS**, **GROUND BEETLES**, **MILLIPEDES**, **MOLE CRICKETS**, **PILLBUGS**, **SOWBUGS**, **SCORPIONS** AND **TICKS**: Apply around doors and windows and other places where these pests may enter premises. Treat baseboards, storage areas and other locations where these pests are found.

PANTRY PESTS - GRAIN BEETLES (RUSTY, MERCHANT AND SAWTOOTHED), **FLOUR BEETLES (RED AND CONFUSED)**, **CHOCOLATE MOTHS**, **CIGARETTE BEETLES**, **CLOVER MITES**, **CLUSTER FLIES**, **DRUGSTORE BEETLES**, **ELMLEAF BEETLES**, **RICE WEEVILS**, **LESSER GRAIN BORERS**, **SPIDER BEETLES** AND **TOBACCO MOTHS**: Treat exposed stages. Remove all foodstuffs, utensils and shelf paper from area to be treated. Discard used shell paper and any infested foodstuffs. Apply spray to shelves and in cracks and crevices behind and under cupboards and cabinets. Allow spray to dry prior to replacement of food and utensils.

CARPET BEETLES (Black, Furniture and Varied): Spray on and under edges of floor coverings, under rugs and furniture and in closets or other localities where these insects are found.

WEBBING CLOTHES MOTHS: Use this product as a crack and crevice treatment in closets and other storage areas where these pests are found. This is an adjunct treatment and will not control moth larvae already on clothes. Do not apply to clothing. *Deleted*

PESTS ON OUTSIDE SURFACES OF BUILDINGS: For control of building infestation due to Ants, Clover Mites, Crickets, Earwigs, Millipedes and Sowbugs (Pillbugs). Spray foundation of building where insects are active and may find entrance up to a height of 2 to 3 feet. Apply as a residual spray to outside surfaces of buildings where insects tend to congregate. Spray areas include screens, window frames, eaves, porches, patios, garages and refuse dumps.

Localized Treatment of Wood-Infesting Insects: Beetles and Borers (such as the following families: Anobiidae, Bostrichidae, Buprestidae, Cerambycidae, Lyctidae, Cedermeridae, Sestidae), **Carpenter Bees**, **Termites** and **Wood Wasps**: Locate area of infestation and/or insect tunnels and cavities. Using a crack & crevice tip, spray into tunnels, galleries and inaccessible closed voids. In infested areas, small holes should be drilled eight to ten inches apart to insure thorough insecticide gallery treatment. Be sure not to contact electrical wiring or plumbing when treating. For Carpenter Bees, seal the entrance holes with small pieces of business steel wool after application. For termites, the purpose of such applications is to kill workers or winged forms which may be present in the treated areas at the time of application. Not recommended as sole protection against termites. For active infestations, get a professional inspection. *Deleted*
