## AVOID CONTAMINATING EDIBLE PARTS OF PLANTS WHEN APPLYING THIS BAIT

CROP	Dosage Limitations to meet Residue Tolerances	Days Between Final Application and Harvest
Strawberries	50 lbs.	6
Asparagus, cabbage, broccoli, cauliflower, lettuce (head), beets (roots)	50 lbs.	3
Lettuce (leaf), spinach, beets (tops)	50 lbs.	14
Beans, carrots, tomatoes, peppers, potatoes	50 lbs.	No time limitations
Cucumbers, melons, squash	25 lbs.	No time limitations
Peas	35 lbs.	No time limitations
Citrus, apples, apricots, cherries, grapes, nectarines, peaches, pears, plums	50-60 lbs.	No time limitations
Ornamentals, borders	50-100 lbs.	No time limitations

Special instructions for improved performance are:

- 1. Slugs and snails favor dark, damp places. Bait where these pests stay during daylight hours.
- 2. Be sure area to be baited is damp. In dry weather, water area well before baiting.
- 3. Apply bait in evening as these pests feed mainly at night.
- 4. Until under control, bait should be renewed at least every 7-10 days or more frequently if necessary.
- 5. Since snails and slugs migrate extensively, when invasions from adjacent areas are anticipated, a barrier of the bait will aid in control. .4**7.5** \_ 10
