## OUTSTANDING ALGAE GROWTH DEPRESSANT FOR SWIMMING POOLS

### ACTIVE INGREDIENTS:

n-Alkyl (60% C <sub>10</sub> , 5% C <sub>12</sub> , 5% C <sub>14</sub> ) Dimethyl Benzyl Ammonium Chloride	8.4%
n-Dialkyl (5% C <sub>12</sub> , 5% C <sub>14</sub> ) Methyl Benzyl Ammonium Chloride	1.6%

### INERT INGREDIENTS:

90%

### DANGER KEEP OUT OF REACH OF CHILDREN

Corrosive, causes eye damage and skin irritation. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

### FIRST AID

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes call a physician. Remove and wash contaminated clothing. If swallowed, promptly drink a large quantity of milk, egg whites, gelatin solution. If these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately. **NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

### FISH AND WILDLIFE PRECAUTIONS

This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds or public water. Apply this product only as specified on this label. Rinse empty container with water and discard it.

### DIRECTION FOR USE

**INITIAL TREATMENT**—Use 26 ounces of Algitrol for each 10,000 gallons of pool water, or 1 gallon for each 50,000 gallons of water. Apply directly to pool water. If pool has visible algae growth treat with initial dose. Vacuum after 24 hours to remove algae debris. If visible algae are still present or reappear repeat this treatment as necessary. When pool is free of visible algae use recommended maintenance dose.

**MAINTENANCE TREATMENT**—Add 6.5 ounces for each 10,000 gallons of water, or 1 quart per 50,000 gallons of water every 5 to 7 days. If high temperatures prevail or pool has unusually heavy use, add more frequently.

Algitrol is an outstanding algae growth depressant in all types and sizes of pools. It helps eliminate and prevent odors from confined water. Algitrol is fully compatible with the usual water treating chemicals. By controlling algae growth with Algitrol chlorine demand in the pool may be reduced. Algitrol is non-corrosive to rubber or metal pool parts.
