

DIRECTIONS FOR USE

Read entire label before spraying. Use strictly in accordance with label cautions, warnings and directions.

FOR CONTROL OF Lawn Moths (Sod Webworms), Wireworms, Cutworms and Fleas in Dichondra and Grass Lawns: Use 2 tablespoonfuls of Germain's 50% Chlordane Spray to 1 gallon of water. Water lawn thoroughly before treatment. Apply spray solution over lawn, while it is still damp, at rate of 1 gallon to each 150 sq. ft. of lawn area. Do not water for 24 hours after treatment.

Note: Birds feeding in treated areas may be harmed.

FOR CONTROL OF Ants: Use 2 tablespoonfuls of Germain's 50% Chlordane Spray to 1 gallon of water. Apply freely with a hose-end sprayer or sprinkling can on ant trails, ant holes, around walls, steps and house foundations. Repeat as often as required for control.

Do not use on food, feed or forage plants.

FOR CONTROL OF Earwigs, Grasshoppers and Sowbugs: Use 1 tablespoonful of Germain's 50% Chlordane Spray to 1 gallon of water. Spray freely on soil surface and foliage or flowers, shrubs, trees and along fences and walls. Wet surfaces thoroughly and repeat as often as required for control.

Do not use on food, feed or forage plants.

FOR CONTROL OF Termites: Use 1 quart of Germain's 50% Chlordane Spray to 12 gallons of water. Apply 2 gallons per 5 linear feet in trenches 15 inches deep around the house foundations. For buildings with deep foundations, dig a trench 30 inches deep but do not dig below the footing. Apply 1 gallon of finished spray per linear foot of trench. Apply 1 gallon to 10 square feet under the house or attached porches.
