# GERMAIN'S

IMPROVED

## Broadleaf Weed Killer

For control of Broadleaf Weeds (Dandelions, Clover, Spurge, Chickweed, Plantain and certain others) in grass lawns.

DANDELION

CLOVER

PLANTAIN

CHICKWEED

**ACTIVE INGREDIENTS**

Dimethylamine salt of 2,4-dichlorophenoxyacetic acid  
1,1,1-trichloro-2,2,2-trifluoroethane  
N-methyl-2-pyrrolidone  
N-methyl-2-pyrrolidone  
N-methyl-2-pyrrolidone

**BY WT.**

2,4-D 10.0%  
TCE 10.0%  
NMP 80.0%

**CAUTION:**

Keep out of reach of children. Do not use on lawns containing St. Augustine grass.

NET CONTENTS 16 FL. OZ. (1 PT.)

**GERMAIN'S  
IMPROVED  
BROADLEAF  
WEED KILLER**

**CAUTION:** Harmful if swallowed. Avoid contact with skin, eyes or clothing. Avoid breathing spray mist.

Avoid drift of spray mist onto vegetables, flowers, ornamental plants, shrubs, trees and other desirable plants. Do not contaminate domestic or irrigation water. Do not pour spray solutions near these plants. Do not store in contact with fertilizers, seeds, insecticides, or fungicides. Do not spray on carpetgrass, dichondra nor lawns or turf where desirable Bentgrass or Clovers are present. When container is empty, wash thoroughly and destroy. Never re-use. Use only lawn sprayers for this use. Coarse sprays are less likely to drift. Do not apply to areas underlaid by roots of desirable trees and shrubs. This product may be injurious to St. Augustine grass.

**CONTENTS WILL TREAT 5,400 SQUARE FEET**

**GERMAIN'S IMPROVED BROADLEAF WEED KILLER**

Germain's Improved Broadleaf Weed Killer is a selective herbicide providing a broad spectrum of weed-kill. It is especially effective against weeds such as Dandelion, Chickweed, Spotted Spurge, and Oxalis. In addition to these, it kills virtually all broadleaf weeds, some of which are listed on the right side panel.

Improved Broadleaf Weed Killer can be applied to grass lawns containing Bluegrass, Fescues, Bermuda and Zoysia grasses. Some injury can be expected to turf when used on Centipede or St. Augustine grass lawns. "Spot Spray" weeds only. Clover present will be damaged if sprayed. Do not use on Dichondra and Carpetgrass lawns. Do not allow spray to get on vegetables or ornamental plants since injury may result.

**DIRECTIONS FOR USE**

For best results, apply Germain's Improved Broadleaf Weed Killer in Spring or early Fall when weeds are actively growing. Avoid applying during long excessively dry or hot periods unless adequate irrigation is available. Do not irrigate within 24 hours of application. Do not apply to newly seeded lawns until after the second or third mowing. Grass seed can be safely sown 3 to 4 weeks after application at recommended rate. For best absorption of material by the weeds, avoid cutting or mowing lawn for 2-3 days before and after spraying.

**DOSAGE:** Place 1/2 fluid oz. or 1 tablespoonful of Germain's Improved Broadleaf Weed Killer in Germain's Deluxe Lawn Sprayer (15 gallons) or other similar hose-end applicator. Fill with water to the 1 gallon mark and apply over 170 sq. ft. of lawn area. Below are dosage rates for larger areas.

AMOUNT OF CHEMICAL TO USE	FILL SPRAYER TO		
(TABLESPOONFUL)	(FL. OZ.)	(GALLONS)	AREA TO SPRAY
5	2 1/2	5	850 sq. ft.
10	5	10	1,700 sq. ft.
15	7 1/2	15	2,550 sq. ft.
20	10	20	3,400 sq. ft.
32 or 1 Pint	16	32	5,400 sq. ft.

When using a pressure (tank type) sprayer, measure 2 fl. oz. or 4 tablespoonfuls of chemical into tank, add 1 gallon of water. This dosage will treat 670 sq. ft. or can be used as a spot treatment.

**NOTE:** Whether using a hose-end sprayer or pressure sprayer, avoid sprays which are too fine because they can drift and damage ornamental or garden plants.
