

DIRECTIONS FOR USE

Be sure to point valve opening toward plant. Hold bomb about 14-16" from flower cluster. Spray each cluster a fraction of a second—one light, brief press on the valve.

Apply as a direct fine spray to blossom clusters when the majority of flowers in the cluster are open. Do not apply directly to leaves or fruit. Do not spray individual clusters more than once. Do not spray leaves or fruit. Do not make more than five applications per season. Spray clusters very lightly for best results.

WARNING: Harmful if swallowed. Avoid contact with skin, eyes and clothing. Wash hands after use. Keep away from pets.

Do not use on tomatoes grown for seed. Do not spray flower beds, vegetables or ornamental plantings. Avoid drift of spray or vapors as this product may injure nearby susceptible plants. Spray on a calm day.

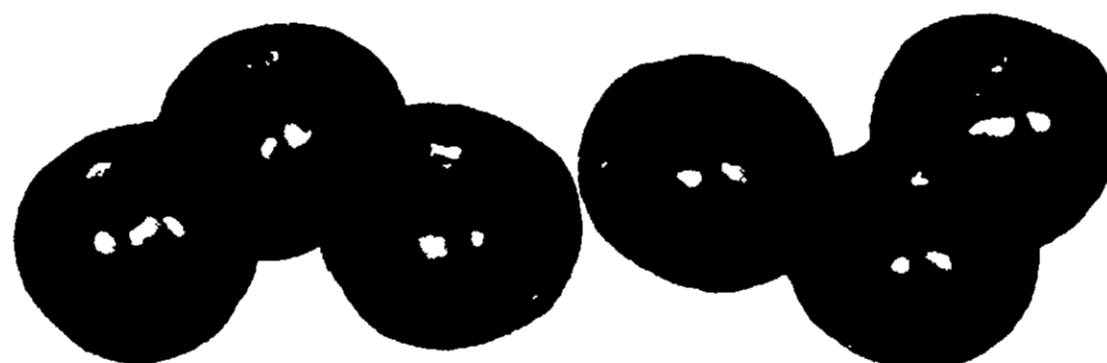

Avoid contamination of feed and foodstuffs. Do not store near or transport with fertilizers, insecticides, fungicides or seed. Avoid contamination of irrigation ditches or water used for domestic purposes.

FLAMMABLE: Contents under pressure. Do not burn or puncture this container. Do not store above 120°F. Keep at room temperature—away from direct sunlight, radiators, stoves, hot water and other heat. Do not use or spray near heat or open flame.

Makes Blossoms Set Fruit**

WARNING

NET WT. 5 OZ.

GERMAIN'S SURE-SET FOR TOMATOES

Tomato plants frequently fail to set blossoms early in the season or during cold weather. This undesirable characteristic can be overcome without regard to variety or temperature by treatment with Germain's Sure-Set for Tomatoes. Spraying it on flowers will stimulate the formation of tomatoes and pollination is unnecessary. This is of particular value in localities where prevailing conditions interfere with effective pollination.

This product aids in the production of larger tomato crops and earlier crop harvest.
