The information is not intended to be used as a basis for investment decisions.

A 10% reduction in population
may be important when weather
conditions favor drift from areas
treated.

This pond is to be a "trap" for
 keeping water in a small, well
 lined pit. The fish keep out
 the rest of water.

1. The first step is to identify the problem or goal. This involves understanding the current situation and what needs to be achieved.

4368

For example, in a study reported by the authors, the results indicated that the subjects indicated on the label "Be careful" more than half of the time, and handling of the material without the label is non-compliance with the instructions.

Slug & Snail meal

WARNING: Keep Out Of Reach Of Children. May be fatal if swallowed or inhaled. If swallowed, induce vomiting. Call Physician immediately. Avoid contact with skin, eyes and clothing. In case of contact with skin or eyes, flush with plenty of water. For eyes, get medical attention. Wash hands with soap and water after handling and before eating or smoking. Wash Clothing. Keep domestic animals and poultry off treated areas. Dogs are attracted to this bait.

Apply this product only as specified on this label. Do not apply when weather conditions favor drift from areas treated.

This product is toxic to wildlife. Birds feeding on treated area may be killed. This product is toxic to fish. Keep out of any body of water.

Dispose of empty container or any spillage promptly—burn or bury.

NOTICE

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.

THIS PRODUCT IS SOLD BY WEIGHT, NOT BY VOLUME. SOME SETTLING OF CONTENTS MAY HAVE OCCURRED DURING SHIPPING AND HANDLING.

Slug & Snail meal

USE DIRECTLY ON SOIL AROUND
ORNAMENTAL PLANTS

Best Slug & Snail Meal is ready to use as it comes from the package. Just place small heaps of about a teaspoonful each at frequent intervals in infested areas. Slugs and Snails will be attracted to the bait and will be quickly killed after feeding. For best results, soil should be moist at the time of application. In dry weather, water before baiting. For all applications listed below, distribute Best Slug & Snail Meal at the rate of 1 lb. per 100 sq. ft.

All likely places should be treated. Slugs and Snails seek shelter during the day in protected cool areas. They prefer damp locations around flower beds, under shrubbery, in rock gardens, borders, and low growing ground covers such as ivy and Arisaema.

NOTE: When applied as directed above, Best Slug & Snail Meal will withstand rain and sun, killing and continue protecting your garden for several weeks. During periods of damp weather, Slugs and snails are very active and multiply rapidly, so it may be necessary to reapply more frequently to replace the bait that is consumed.

SPECIAL APPLICATIONS

- 1. Property Line Applications:** Slugs and Snails often migrate from neighboring properties. Place a thin line of Best Slug & Snail Meal along the property line to intercept the pests before they can damage your garden.
- 2. Heavy Infestations:** For heavy infestations, Best Slug & Snail Meal may be broadcast lightly over the ground. When used in this way, bait may have to be replaced more often.
- 3. Dichondra Lawns:** Broadcast uniformly over the lawn for complete control. It is advisable to bait heavily in adjoining areas surrounding the Dichondra lawn to eliminate migration to the lawn.
