

50% CHLORDANE INSECT SPRAY

Best 50% Chlordane Insect Spray is a highly effective control for many lawn and soil insect pests. Used as directed it will kill the listed insects on contact and provide residual control that will prevent reinfestation. Use as directed for specific problems. May be applied with any type of garden sprayer.

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.

CAUTION: Keep out of reach of children. May be fatal if swallowed. May be absorbed through the skin. Do not breathe spray mist. Avoid contact with skin, eyes and clothing. Wash thoroughly after handling. Avoid contamination of feed and foodstuffs. Do not use on household pets or humans. Do not permit children or pets to go onto sprayed grass until spray has completely dried. Keep out of reach of domestic animals. Do not contaminate ornamental fishponds. Do not apply to plants or lawns that are not well irrigated.

WARNING: DO NOT USE, POUR, SPILL OR STORE NEAR HEAT OR OPEN FLAME.

This product is highly toxic to bees exposed to direct treatment or residues on crops. Protective information may be obtained from your cooperative Agricultural Extension Service.

This product is toxic to fish and wildlife. Birds feeding on treated areas may be killed. Keep out of any body of water. Do not apply when weather conditions favor drift from areas treated. Do not apply where runoff is likely to occur. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label. When container is empty wash thoroughly and destroy. Never reuse.

DIRECTIONS FOR USE

Read entire label. Use strictly in accordance with label cautions, warnings and directions.

Keep pesticide in original container. Do not put concentrate or dilute into food or drink containers.

LAWN INSECTS in grass and dichondra lawns: Lawn moth (Sod Webworms), Cutworms, Fleas. Water lawn thoroughly before treatment. Dilute 2 tablespoons (1 fl. ounce) per gallon of water per 150 square feet of lawn. Do not water lawn for two days after treatment. **NOTE:** For control of White Grub (June Beetle larvae) water in immediately after application.

NIGHT CRAWLERS: Apply diluted material at the rate of 4 tablespoons (2 fl. ounces) per gallon of water per 250 square feet. Water in immediately after application.

NUISANCE PESTS in outside areas. Ants, Sowbugs, Earwigs, Spiders and Crickets. Dilute 2 tablespoons (1 fl. ounce) per gallon of water. Spray thoroughly around garbage cans, along fence lines, completely around foundations under trees and shrubs, around lumber piles, in rock areas, wherever insects may hide.

ROOT ATTACKING PESTS: Cutworms, Strawberry Root Weevils (Brachyblacus) around Camellias, Azaleas, Rhododendrons, Primroses and many other ornamentals. Use at the rate of 2 teaspoons per gallon of water. Spray foliage thoroughly and drench around base of plants, soaking to a depth of 4 inches.

GRASSHOPPERS: On ornamental shrubs and trees, use at rate of 2 teaspoons per gallon of water. Thoroughly spray foliage and ground around plants.
