

## DIRECTIONS FOR USE

Read entire label. Use strictly in accord with label cautions, warnings and directions.

### PESTS: Out of Doors:

To help prevent infestation of buildings by ants, crickets, earwigs and sowbugs (pillbugs), treat a band of soil 6 to 10 feet wide around and adjacent to the building, also the building foundation to a height of 2 to 3 feet, where pests are active and may find entrance. Use the same dosage and dilution recommended in the table below. Apply as a coarse spray to thoroughly and uniformly wet the band area.

Lawn & Turf Insect Spray contains Dursban® Insecticide. This phosphate insecticide provides control of insects attacking home lawns and other ornamental and recreational turf grass areas. Insects controlled: *Lawn Moth (Sod Webworm), Chinch Bugs, Cutworms, Earwigs, and Grasshoppers.* Spray when pests first appear; repeat when needed. One application usually will control Chinch Bugs for up to 8 weeks.

Mix Lawn & Turf Insect Spray with water according to the directions in the following table. Apply as a coarse (large droplet) spray using a low pressure sprayer such as hose-attached applicator, knapsack-type, tank-type, or similar equipment. For best results, the lawn should be moist at time of application and care should be taken to obtain complete coverage of pest infested areas.

#### DOSAGE AND DILUTIONS FOR USE ON TURF

| Area To be Treated | Amount To Use*   | Dilute with Water To Give |
|--------------------|------------------|---------------------------|
| 500 sq. ft.        | 3 fl. oz.        | 15 gallons                |
| 1,000 sq. ft.      | 6 fl. oz.        | 30 gallons                |
| 10,700 sq. ft.     | 2 quarts         | 325 gallons               |
| One Acre           | 2 gallons        | 1,300 gallons             |
| *1 fluid ounce     | 2 tablespoonfuls | 6 teaspoonfuls            |

HORTICULTURAL NOTE: Damaged lawns and ornamental turf should be fertilized to stimulate re-growth and recovery from insect injury.

PESTS OF ORNAMENTALS: To control bagworms, cutworms, grasshoppers, leafhoppers, mealybugs, mites, spittlebugs, thrips (exposed) and whiteflies on flowers, shrubs, vines, shade and flowering trees and evergreens found to be infested with these pests. Dilute with water according to directions given in the following table and apply using suitable hand or power spray equipment in a manner to provide complete and uniform coverage of infested plants. Avoid overspraying to the point of excessive runoff. Treat when pests appear and repeat at 7 to 10 day intervals, if needed. NOTE — *Do not use on azaleas, camelias, poinsettias, rose bushes or variegated ivy because of possible injury to these plants.*

#### DOSAGE AND DILUTIONS for USE on ORNAMENTAL PLANTS

| PESTS CONTROLLED   | AMOUNT IN WATER TO MAKE |            |             |

KEEP OUT OF REACH OF CHILDREN

May be fatal if swallowed  
May be absorbed through the skin  
May be injurious to the eyes and skin  
Combustible  
Keep children and pets off treated areas until spray has dried

WARNING: Do not use, pour, spill or store near heat or open flame

Note to Physician: Active ingredient is a cholinesterase inhibitor.  
Treat symptomatically. Atropine is an antidote.

Do not take internally. Do not get in eyes or on skin. Do not smoke while using. Wash thoroughly after handling. Wash contaminated clothing before re-use. Flush contaminated eyes with plenty of water and get medical attention. Avoid breathing spray mist or vapors. Do not spray vegetable gardens or other plants used for food purposes. Keep away from food, feedstuffs, and domestic water supplies. Keep container closed. Do not re-use empty container. Rinse with water and discard in a safe place, preferably by burying in a location away from domestic water supplies. Bury unused chemical and spray mixture as well as rinse wastes in same manner as container.

Do not contaminate water by cleaning of equipment or disposal of wastes.  
Apply this product only as specified on this label.

This product is toxic to fish, birds and other wildlife. Keep out of any body of water. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated.

CONDITIONS OF SALE: 1. Seller warrants that this product consists of the ingredients specified and is reasonably fit for use as directed on the label. No one, other than an officer of Seller, is authorized to make any other warranty, guarantee or direction concerning this product. 2. Because the time, place, rate of application and other conditions of use are beyond Seller's control, Seller's liability from the handling, storage and use of this product is limited to replacement of product or refund of purchase price.
