98.35%

EPA Reg. No. 7001-190-AA

EPA Est. No. 7001-CA-1

## CAUTION

### KEEP OUT OF REACH OF CHILDREN

Avoid contact with skin or eyes. In case of ingestion, severe skin or eye irritation, get medical attention promptly. After use wash all exposed skin areas thoroughly. Clear water must be used as eye wash. Avoid inhalation. Keep away from feed or food products.

Never reuse container. Destroy when empty.

Contains DSMA - Controls Summer Crabgrass in grass or dichondra lawns. Dry - Ready to Apply

### DESCRIPTION

This is a granular crabgrass killer formulation ready to use as it comes from the bag. May be used on either grass or dichondra lawns.

1. Controls growing summer crabgrass
2. Controls yellow and green foxtail
3. Controls young goosegrass
4. Controls barnyardgrass and papsalums such as dallisgrass

### WHEN TO USE

This product is intended to be used during the time when the listed weeds are actively growing in lawns. For best results temperature should be above 65°.

## DIRECTIONS

1. Use only the recommended amount. Measure to determine the area to be treated. 4 lbs. will treat 1,000 sq. ft. (20' x 50').
2. Soil should be moist at time of application.
3. Choose a time when rain is not likely for 24 hours. Do not water in for 24 hours.
4. Apply when lawn foliage is moist from dew, rain or sprinkling.
5. Apply evenly to area with properly calibrated spreader. See setting below.
6. Repeat in 5 to 7 days after first treatment.

*Horticultural Caution:* Do not use on southern grass lawns except bermuda or zoysia. Do not use on new lawns until after third mowing. Do not plant grass seed for 48 hours after using this product. In hot weather good grasses or dichondra may brown temporarily but they will recover.

### SPREADER SETTINGS

Spreader	Setting
Central Model #1622E Imperial Mark	4 1/2
Sears Model #1919	4 3/4
M.T.D. #431-340	5 3/4
Wards Model #89-1081	5 3/4
Scott Model #35	4 1/2

\*Settings are for spreaders in new condition. After use spreaders will vary and must be checked for accuracy.
