KEEP OUT OF REACH OF CHILDREN DANGER

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Causes irreversible eye damage. Harmful or fatal if swallowed. Avoid contact with skin. Do not get in eyes or on clothing. Wear goggles, face shield or safety glasses. Wash thoroughly with soap and warm water after handling. Wash contaminated clothing with soap and hot water before re-use. Do not enter treated area within 24 hours following application of this product. Do not graze treated area. Do not feed clippings to livestock.

Protective clothing should be worn during periods of exposure, such as during application or when contacting treated foliage. Antihistamine may cause a temporary allergic skin reaction in a few susceptible persons. This condition should be treated as an allergic dermatitis. There is no evidence of aftereffects or permanent injury.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person. Get medical attention. IF ON SKIN wash with soap and water. If irritation persists contact a physician.

IF IN EYES flush with water for at least 15 minutes. Bathe eyes with sodium bicarbonate solution.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic invertebrates. Do not apply directly to water or wetlands. Drift and runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water by cleaning of equipment or disposal of wastes. Cover or incorporate spills.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

STORAGE: Do not store near any material intended for use or consumption by humans or animals. Avoid moisture and temperature extremes.

DISPOSAL: Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

TURF FUNGICIDE 50 W is an organic fungicide for disease control of

lawns and turf. Its broad-spectrum effect controls major turf diseases. TURF FUNGICIDE 50 W provides very good suspension in water, and is suitable for use in all common types of spray equipment. TURF FUNGICIDE 50 W will not harm spray equipment, clog nozzles or corrode metal parts of the sprayer. For a preventive program begin applications before diseases appear. The spray program should be continued through the spring or summer months. When diseases are directed, TURF FUNGICIDE 50 W controls the following turf and lawn diseases:

Helminthosporium disease (Melting-out) Spot

Copper Spot

Sclerotinia Dollar Spot

Snow Mold (Typhula)

Rust

Brown Patch (Rhizoctonia)

REGISTERED
Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide registered under EPA Reg. No. 7001-280

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not allow re-entry into treated areas for 24 hours after application.

1. Calculate area to be treated and weigh the proper amount of material required.
2. Complete and thorough coverage of area is necessary for satisfactory control. Calibrate sprayer carefully.
3. For a preventive program, begin applications before diseases appear using lower rate and repeat at intervals of 10-14 days. During extended periods of cool moist conditions, applications every 7 days may be advisable. This program should be continued throughout the growing season.
4. When diseases are established, use the higher rate. Also under severe disease conditions such as cool moist weather, the higher rate is advisable.
5. Schedule applications in accordance with local conditions. Consult your State Agricultural Experiment Station or Extension Service for specific use information.

RECOMMENDED APPLICATIONS

Lawns & Turf: Brown Patch, Copper Spot, Dollar Spot, Leaf Spots, Melting-Out, Rust, Snow Mold (Typhula), 1/4 to 1/2 lbs. Apply specified dosage in 5 gallons of water per 1,000 square feet. Repeat at 1 to 2 week intervals throughout the spring and summer months. For control of Snow Mold (Typhula), apply at lower specified rate after the first killing frost in the fall. A second application should be made when the lawn is free of snow in mid-winter, and this should be followed by a third application after the final melting of snow in later winter or early spring.

CONTAINER AND WASTE DISPOSAL: Rinse equipment and dispose of waste by burning in non-crop lands away from water supplies. Dispose of container by burying with wastes or burning (keep out of smoke). Never re-use container.

12 x 4 NET WT. 48 LBS.

DISCLAIMERS OF WARRANTIES: Seller warrants that the chemical composition of this product conforms to the chemical description given on the label. THIS WARRANTY IS EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES AND REPRESENTATIONS, EXPRESSED, IMPLIED OR STATUTORY, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR USE. Timing, rate and method of application, weather and crop conditions, mixtures with other products, and any other information on this label or an accompanying written recommendation, are beyond the control of seller. Buyer assumes all risks of use, storage and handling of this material and in strict accordance with directions given hereon. Buyer further agrees in the event of damage arising from the use of this product to accept a replacement of the product or a refund of the purchase price of the product at buyer's option, as full discharge of seller's liability. No one is authorized to make any other warranty, guarantee or directions concerning this product and no such warranties, guarantees or directions shall be valid or binding upon seller.
