KEEP OUT OF REACH OF CHILDREN

DANGER

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Corrosive to eyes. Causes irreversible eye damage. Wear goggles, face mask, or safety glasses with side shields. Due to corrosive nature may be harmful or fatal if swallowed. Avoid contact with eyes, skin, or clothing. Wash thoroughly with soap and water after handling. Remove and wash contaminated clothing before reuse. Avoid breathing dust or spray mist. Keep animals off treated area until product has leached into the soil either by rainfall or watering.

STATEMENT OF PRACTICAL TREATMENT

IF IN EYES, hold eye open and wash with steady gentle streams of water for 15 minutes. Get medical attention.

IF SWALLOWED, drink promptly, a large quantity of milk, egg whites, gelatin solution or, if these are not available, drink large quantities of water. Avoid alcohol. Call a physician or Poison Control Center. Get medical attention.

IF ON SKIN, wash with plenty of soap and water. Get medical attention.

IF INHALED, move to fresh air and give artificial respiration if not breathing. Get medical attention.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

ENVIRONMENTAL HAZARDS

For terrestrial uses, do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not apply where run-off is likely or where weather conditions favor movement away from target areas. Do not contaminate water when disposing of equipment wash waters.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

STORAGE: Avoid direct contact with floor and moisture.

DISPOSAL: Empty product from bag before disposal. Dispose of bag in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

Monobor-Chlorate®

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in any manner inconsistent with its labeling.

BareSpot® Monobor-Chlorate® is designed for non-selective kill of weeds and grasses with a single treatment. Use for quick knockdown of existing vegetation as well as short season effect in the soil for control of regrowth or new seedlings.

FOR USE ON NON-CROPPED AREAS

IMPORTANT: This material is not selective in action and may be toxic to all types of vegetation and may render the entire treated area totally or partially unproductive for one or more years. Care should be taken to continue the use of application to the particular area intended to be treated and to avoid its contact with lawns, trees, shrubs, crops and other desirable plants which are not intended to be destroyed or injured. This includes precautions in treating areas which may be underlaid by roots of adjacent desired growths. Careless application of this material, or washing by water run-off to areas where desirable plants are growing or which will be used for later planting, may result in injury to desirable plants. Do not drain or flush equipment on or near such areas. Do not contaminate domestic or irrigation water or waters used by fish and wildlife. Wash clothing and equipment after application. Keep animals off treated area until rainfall has leached all the herbicide into the soil. Mechanical equipment should be thoroughly cleaned after use.

WHERE TO USE

AROUND OR NEAR THE FOLLOWING: Bleachers, Bridge abutments, Buildings, Bunkers, Buried cable closures, Catwalks, Cemeteries, Compressor stations, Cooling towers, Cross connect boxes, Ditch banks, Electrical generators, Fence lines, Fire hydrants, plugs or walls, Fuel tanks, Generating plants, Guardrails, Halo pads, Highway & street markers, Loading stations, Lumber yards, Microwave towers, Oil & Gas pipelines, Oil refineries, Parking lots, Pump decks, Railroad lines & sidings, Runway lights, Runways, Sign posts, Storage & equipment yards, Utility poles & substations, Vacant lots, Valves & manifolds, Waste lagoons.

UNDER THE FOLLOWING: Asphalt, Concrete, Gravel Driveways, Inter-locking pavers, Sidewalks or walkways and other similar non-cropped areas.

WHEN TO USE: Use BareSpot® Monobor-Chlorate® anytime during the growing season. Weeds and grasses are easier to kill with BareSpot Monobor-Chlorate when they are young and growing rapidly.

Compare with these illustrations to determine your approximate rate of application:

1/2 lb. per 100 sq. ft.

1 lb. per 100 sq. ft.

1 1/2 lbs. per 100 sq. ft.

2 lbs. per 100 sq. ft.

NOTICE: Because of the many varying conditions affecting use and application, such as location, seasonal weather, vegetation, manufacturer warns buyer that these and other conditions may impair or vary the results or effectiveness. In any event, complete elimination of weeds is not guaranteed. It is advisable to consult your State Extension Service Weed Specialist on specific problems. Neither manufacturer nor seller shall be liable in respect to any injury or damage caused by the use of this product for a purpose not indicated by the label or when used contrary to the directions or instructions on the label or any warranty not expressly specified herein. Buyer accepts this material subject to these terms and conditions of sale and handling except when used or handled in accordance with this label. Neither manufacturer nor seller makes, nor permits to make, any representations or warranties, express or implied by law, not specifically set forth on the label.

DISCLAIMER: J. R. Simplot Company warrants only that the material contained herein conforms to the chemical description of the label and is reasonably effective when used in accordance with the DIRECTIONS FOR USE. It is impossible to eliminate all risks associated with use of this product. Injury to desired vegetation, ineffectiveness or other such factors such as weather conditions, presence of other minerals, soil conditions, or the manner of use or application, all of which are beyond reasonable control of the manufacturer, are excluded. J. R. Simplot Company makes no other expressed or implied warranty, including any other express or implied warranty.

INDUSTRIAL SITES OR STORAGE AREAS

APPLICATION: BareSpot Monobor-Chlorate can be applied with a hand operated spreader, a cyclone type spreader, or a power driven spreader. The granules are applied uniformly over the area. The herbicide becomes effective in soil, following rainfall.

DRY APPLICATION: BareSpot Monobor-Chlorate can be applied with a hand operated spreader or a power driven spreader designed for this use. Power driven spreaders are preferred.

Use the following rates of application:

APPLICATION CONVERSIONS:
