

F2301 is a cleaner, disinfectant, and sanitizer, designed for institutional use such as Hospitals, Nursing Homes and Institutions where housekeeping will be of prime importance in controlling the hazard of cross-infection. F2301 can provide the assurance you need in this area, when used as directed. For use on floors, walls, sink tops, garbage pails, telephones, rest rooms, bed pans and operating rooms. Effective against Staphylococcus aureus, Salmonella choleraesuis and Pseudomonas aeruginosa. Also effective against pathogenic fungi, Trichophyton interdigitale.

DANGER

Keep Out of Reach of Children. Causes skin irritation...causes eye damage. Do not get in eyes, on skin or on clothing. Harmful if swallowed. Avoid contamination of food.

FIRST AID

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Call a physician.

DANGER

Keep Out of Reach of Children. See 1st Aid and Precautions on left side panel.

DIRECTIONS

Use at 2 ounces per gallon. This product will be effective against Pseudomonas aeruginosa PRD - 10 at this level. This has been substantiated by the AOAC Use Dilution Confirmation Test. At this level, the product is fungicidal against pathogenic fungi.

For best results, use F2301 with a cloth or mop and apply to walls, floors and other hard surfaces. For heavy soil or organic matter, a precleaning step is recommended.

When used for sanitization of food processing equipment and food contact items, limit active quaternary to 200 ppm. (2.8 ounces per 5 gallons). A Potable Water Rinse is required.

Rinse empty container thoroughly with water and discard.
