

[7234-33]

FORFOG - PBPP Fog Concentrate is a semi-concentrated insecticide, for application in specialized fogging or aerosol equipment, such as the Tifa Fog, Microsol, Challenger Generators, Tornado, Bes-Kill Aerosol Generator, electric and compressed air applicators and similar equipment. This product can be used around food, food products, but should not be applied directly to uncovered food or food stuffs.

DIRECTIONS

In proper fogging application **FORFOG - PBPP Fog Concentrate** kills the accessible, exposed stages of flies, mosquitoes, silverfish, small flying moths, gnats, crickets, roaches, spiders, scorpions, wasps, hornets, clover mites, cheese mites, cheese skipper, granary weevil, rice weevil, grain beetle, spider beetles, angoumois grain moth, Mediterranean flour moth and grain mites. Use Fog equipment in accordance with manufacturer's direction. Dosage by fogging should be 2 to 6 ounces per 1,000 cubic feet of space. Repeat treatments at intervals as needed. Do not remain in treated areas, ventilate the area after treatment is completed. Spray application for crawling insects named above, thoroughly spray with a coarse wet spray with repeated treatments into all parts of rooms suspected of harboring these pests. Pay particular attention to cracks and hidden surfaces around sinks or food storage areas where these insects may be hiding. This is a contact insecticide and it is necessary in all cases that the insects be contacted directly with the spray to obtain results.

EPA Registration No. 7234 - 33
EPA Est. No. 7234 - NC - 2
