DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Use at least one canister for each 10,000 cubic feet of unobstructed area. Use additional units for remote rooms or where free flow of mist is not assured.

IMPORTANT:

Locate fogger in center of room or area being treated. Place newspapers under fogger unit and for three or four feet around the can to prevent staining or marring surfaces. Close doors and windows. Remove pets. Cover exposed foods and dishes. Open cabinets and doors to areas to be treated. Shut off fans and air conditioners. Put out all open flames except pilot light. Place at least 8 feet away from pilot light. Keep at arms length when releasing. Point top of can away from face and eyes. To start fogging action, press plastic tab on valve down until it clicks. Set in upright position and leave the building at once. Leave undisturbed for at least 2 hours. Open doors and windows and allow to air for 30 minutes.

Solvents may soften some asphalt or synthetic tile floors. If used directly over asphalt or synthetic tile, newspapers should be spread on the floor for several feet around the area of release. Do not use with freshly waxed floors; allow wax to become hardened. Some plastics may be affected. Remove or cover plastic items such as eyeglasses, stereo covers, notion boxes.

DISPOSAL

Do not reuse empty container. Wrap container and put in trash collection.
