Read This Label Carefully

Dormant and growing season Oil Spray controls Scale Insects, Mealybugs, White Flies, Red Spider Mites.

ACTIVE INGREDIENT:

Petroleum Oil ----- 98%

INERT INGREDIENTS: ----- 2%

Petroleum Oil minimum unsulfonated residue - 93%

Petroleum Oil classification: Unclassified

E.P.A. Reg. No. 7001-173-AA E.P.A. Est. No. 7001-CA-1

READ ENTIRE LABEL. USE STRICTLY IN ACCORDANCE WITH LABEL CAUTIONS AND DIRECTIONS.

Keep pesticide in original container. Do not put concentrate into or dilute by using food or drink containers.

DIRECTIONS FOR USE

Shake well before using. Use a forceful spray, wetting pests and all parts of plants thoroughly. Do not store diluted spray. Make new dilution for each use.

When fungicides or pesticides are wettable powders, they must be added to the water before adding the oil.

Growing Season: To control scale insects, red spider mites, mealybugs and white fly larvae on citrus (oranges, grapefruit, lemon), fruit trees (apricots, apples, cherries, nectarines, peaches, pears, plums, prunes), shade trees, evergreens, camellias, azaleas, hardy shrubs. Use ½ pint of Oil Spray in 6 gals. of water (2½ tablespoonfuls per 1 gal.). This application is also effective in the removal of sooty mold fungus through the control of white fly larvae. Do not apply to camellias and azaleas during bloom.

As A Sticker Spreader: To increase efficiency of spray treatment use 4 tablespoonfuls (2 oz.) of Oil Spray in 6 gals. water (2 teaspoonfuls per 1 gal.) along with certain other insecticides or fungicides used at regular strength. Note caution.

Greenhouses: To control scale insects, red spider mites, white fly, mealybugs on hardy shrubs, gardenias, camellias and azaleas. Use ¼ pint (4 oz.) per 6 gals. of water (4 teaspoonfuls per 1 gal.). Allow at least 60 days between oil sprays and limiting to 3 applications per year.

For Dormant Use: To control scale insects, red spider mites, mealybugs on dormant shrubs, evergreens (note caution), woody plants, fruit trees (apricots, apples, cherries, nectarines, peaches, pears, plums, prunes), and shade trees. Use 1 pint of Oil Spray in 6 gals. of water (5 tablespoonfuls per 1 gal.).

Combination Winter Spray: Fruit trees (apricots, apples, cherries, nectarines, peaches, pears, plums, prunes), roses and ornamentals (dormant, deciduous only). For control of San Jose Scale, rose scale, oyster shell scale, brown apricot scale, black scale, insect eggs.

Use ½ pint of Oil Spray plus 1½ pints of Lime Sulfur spray in 6 gals. of water (2½ tablespoonfuls of Oil Spray plus 7½ tablespoonfuls of Lime Sulfur Spray per 1 gal. of water). Note cautions on Lime Sulfur Spray label before use.

CAUTION

KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Do not induce vomiting. Call a physician immediately. Wash hands after use. Do not combine with sulfur sprays for use on foliage. Do not use on foliage within 30 days before or after use of sulfur or sulfur sprays. Avoid spraying when temperatures are above 85 degrees or when plants are suffering from drought. Oil sprays should not be applied to broadleaf evergreens when freezing or near freezing temperatures may be expected. Do not use on ferns or cocos palms. Oil sprays may cause discoloration of Blue Spruce.

Do not reuse empty container. Wash thoroughly with water and detergent. Discard in a safe place.

CONTENTS: 1 Flea Tag - 6407 NET WT. AVDP

Do not allow children to play with this tag
See Back panel for additional Cautions

E.P.A. Reg. No. 7056-60 7056-60

Mfg by
CHEM SPRAY AEROSOLS, INC.
16210 Farm Road 149
Houston, Texas 77040

DIRECTIONS FOR USE

Hook the flea tag to dog's collar and pinch "s" hook together. Flea kill begins at once and will continue for 3 months while the tag is worn. Ticks are harder to kill, but those in neck area only will be killed for a short period after the tag is attached. For continuous protection, replace tag every 3 months. For dogs under 50 lbs. use the regular FLEA TAG.

CAUTION

Do not open protective pouch until ready to use. Do not allow children to play with tag. Tag is intended for use only as an insecticide generator. (Shell's U.S. Patents 2,956,073 and 3,116,201) and is not to be taken internally by man or animals. Do not use on sick or convalescing dogs. Do not use on cats, whippets, or greyhounds. Do not use other pesticides on dogs while tag is worn. Remove the tag if any adverse reactions are observed. Some animals may be sensitive to this product.

ACTIVE INGREDIENTS:

2,2-dichlorovinyl dimethyl phosphate 18.6%
