TERM OF ISSUANCE

NAME OF PESTICIDE PRODUCT

CSA Dilutable Bug Killer

NOTICE OF PESTICIDE: REGISTRATION

REREGISTRATION

(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

CSA Limited, Inc.
P.O. Box 73308
Houston, TX 77273

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(1)(A) provided that you:

1. Submit and/or file all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) after the Agency requires all registrants of similar products to submit such data.

2. Make the labeling changes listed below before you release the product for shipment:

a. Add the phrase "EPA Registration No. 7056-125."

b. ~~Remove the following text from the label:~~
~~Remove the following text from the label:~~
~~Remove the following text from the label:~~

c. Revise your storage and disposal directions to read:

Pesticide Disposal. Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions,

ATTACHMENT IS APPLICABLE

DATE

6/12/85

contact you State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Disposal: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Jay S. Ellenberger
Product Manager (12)
Insecticide-Rodenticide Branch

DIRECTIONS FOR USE

In violation of Federal law to use this product in a manner inconsistent with its labeling.

GENERAL INFORMATION: Use this product to control the pests indicated in the areas listed below by application as a 0.5% or 1% spray. Use the 0.5% spray to control light infestations and the 1% spray to quickly reduce heavy infestations or as directed. To prepare the spray, dilute with water as shown in the following **SPRAY DILUTION CHART**. Repeat the treatment as needed.

SPRAY DILUTION CHART

Amount of Spray Mixture Desired		Amount of This Product			
		0.5% - 0.55% - 0.5%		1% - 0.1% - 1%	
Gallons	Liters	Fluid Ounces*	Liters	Fluid Ounces	Liters
1	3.75	11.2	0.50	35.4	0.75
2	7.57	22.4	1.00	70.8	1.50
3	11.33	33.6	1.50	106.2	2.25
10	37.85	112	4.50	350	7.50

*NOTE: Do not store the concentrate at temperatures below 40°F (4.4°C). If the concentrate is exposed to temperatures below 40°F (4.4°C), allow to stand until product reaches room temperature and thoroughly mix before diluting with water. Do not expose the spray mixture to temperatures below 32°F (0°C).

**NOTE: 1 Fluid ounce = 2 tablespoons = 2 teaspoons = 29.57 ml

INSTRUCTIONS FOR CONTACT AND RESIDUAL SPRAYS FOR USE IN NON-FOOD AREAS: INDOORS AND OUTSIDE PREMISES OF HOTELS, MOTELS, HOMES, APARTMENT BUILDINGS, STORES AND WAREHOUSES.

NOTE TO PEST CONTROL OPERATORS: One gallon (3.75 L) of spray is sufficient to treat 1000 linear feet (305 m) with a 6 inch (15.2 cm) spray wand.

HOUSES: Pest control in and around homes, apartment buildings, stores and warehouses. For residual control of ants, cockroaches (waterbugs), millipedes, centipedes, silverfish (firebrats), spiders, bees, brown dog ticks and to aid in control of saw-toothed grain beetles (exp. stage). Apply spray and area is wet but not to the point of run-off.

Use as a residual spray, hitting as many insects as possible, in baseboards, window frames, the under sides of shelves and drawers, under sinks and closets and to other places where insects may hide. Also spray cracks, crevices and surfaces where insects may enter when they come out of hiding. For ants, spray trails and places where ants enter premises. Repeat as necessary.

Do not spray foodstuffs or house plants. Do not use as a spot spray. Provide adequate ventilation of area being treated. Do not allow children to contact treated surfaces until surfaces are completely dry.

Pest Control in Meat Packing and Food Processing Plants, Food Storage Areas, Restaurants, and Other Food Handling Establishments: (places other than private residences in which exposed food is held, produced, prepared or served). For residual control of ants, cockroaches (waterbugs), millipedes, centipedes, silverfish (firebrats), spiders, and to aid in control of saw-toothed grain beetles (exp. stage).

See Food Areas: includes garbage rooms, incinerator, floor drains (to exterior), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, meat blocks and storage (after cooking or bottling).

Apply to baseboard areas, around water pipes, surfaces behind and beneath sinks, doors, tables, pillars and similar areas where insects hide or through which they may enter.

RESTRICTED LIMITED TO CRACK AND CREVICE TREATMENT ONLY: Apply a small amount of material as a putty or spread directly into cracks and grooves such as expansion joints between different elements of construction or between equipment bases and the floor, and voids, in halving equipment legs, where the insects have hidden. Do not use this product to conduct major pestings and electrical switch boxes. Care should be taken to avoid dispersing the product onto exposed surfaces, or introducing the material into the air. Avoid contamination of food or food processing surfaces.

CSA DILUTABLE BUG KILLER

CONTAINS:

0.04 lb/gal of Pyrethrins (8 g/L)

0.42 lb/gal of Propoxur (50 g/L)

0.42 lb/gal of Piperonyl Butoxide (50 g/L)

Offering Good Flushing Activity Quick-Knockdown and Residual Kill of Cockroaches

FOR RESIDUAL CONTROL OF ANTS, COCKROACHES (WATERBUGS), CLOVER MITES, CRICKETS, CENTIPEDES, SAW-TOOTHED GRAIN BEETLES (exp. stage), SCORPIONS, SILVERFISH BARKERS, PLEAS, MOSQUITOES (Outdoor), HOUSE FLIES (Outdoor), HORNETS, MILLIPEDES, BOWLIE B (PILLBUGS), SPIDERS, BROWN DOG TICKS, AND WASPS.

TO BE APPLIED ONLY BY OR UNDER THE SUPERVISION OF PEST CONTROL OPERATORS OR OTHER TRAINED PERSONNEL RESPONSIBLE FOR INSECT CONTROL PROGRAMS.

ACTIVE INGREDIENTS

(S)-cyprohexoic acid (1R,2S)-isomer	1.0%
Pyrethrins	0.04%
Piperonyl Butoxide, Technical	0.42%
NET WEIGHT	1.46%

INERT INGREDIENTS

*Contains Methanol
**U.S. Patent No. 3,663,674
†Equivalent to 4.2% (butylcarbitol) (S-propyl piperonyl) ether and 1.2% related compounds.

DANGER

☠ POISON ☠

SEE SIDE PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS AND STATEMENT OF PRACTICAL TREATMENT

WARNING: Methanol may cause blindness. Harmful or fatal if swallowed. Vapor harmful. Avoid breathing mist or vapors. Avoid contact with skin. In case of eye contact, flush with plenty of water and get medical attention. See side panel for additional precautionary statements.

In food handling establishments, can be used in non-food areas as a contact or residual spray. In food areas, application is limited to crack and crevice treatment.
