

FEB 22 1994

Mr. Manoj R. Kamdar
IQ Products Company
16212 State Highway 249
Houston, TX 77086

Dear Mr. Kamdar:

Subject: Revised Labeling & Confidential Statement of Formula
CSA Super Wasp Spray, EPA Reg. No. 7056-137
Submission dated August 11, 1993

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments listed below. One copy of the finished labeling must be submitted prior to releasing the product for shipment.

- 1) Delete the term "related compounds" from the label ingredients declaration. Unless otherwise substantiated, these isomers should be considered inert. If the "related compounds" are determined to be active, they should be incorporated in the declaration for the active ingredient and not distinguished as "related compounds" or "other isomers".
- 2) Since your product is basically for domestic and residential purposes, remove the precautionary statement, "When using the product in these areas, apply only when facility is not in operation." This statement is not appropriate for the use patterns indicated on your label.

This will also acknowledge receipt of the revised basic formulation dated July 24, 1993 for the subject product. This amendment is acceptable, and a copy of the Confidential Statement of Formula has been placed in the respective file.

Sincerely,

Robert S. Brennis
Acting Product Manager 10
Insecticide & Rodenticide Branch
Registration Division (7505C)
