**NOTE:** Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Richards

Non-food areas are areas such as garbage rooms, lavatories, floor drains (to sewers entries and vestibules), offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling).

c. Use in food processing facilities can imply use in the United States Department of Agriculture (USDA) Meat and Poultry Plants. Therefore, either add the statement "Not for Use in USDA Meat and Poultry Plants" or submit an application to USDA requesting these areas. If granted you can then indicate on the label that the product can be used in these areas.

d. To the beginning of the physical and chemical hazards add "Extremely Flammable" or provide the flash point of the product with the propellant. The flash point reported exceeds the one expected for this product. Please check and resubmit. Mixtures marketed under pressure, including those containing hydrocarbons, are subject in their entirety to tests indicated in 40 CFR Sec. 156.10(h)(2)(iii) of the maxipackage. (Flash points for pressurized liquids are conveniently measured after collecting the expelled liquid from the container in an open cup chilled with dry ice. See Aerosol Guide, CSM.A.)

e. Place "Kennels" at the end of the listing of use sites so that "Non-food areas of Kennels" is not read.

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely yours,

George T. LaRocca

KEEP OUT OF REACH OF CHILDREN

**CAUTION**

STATEMENT OF PRACTICAL TREATMENT

- IF SWALLOWED: Call a physician or Poison Control Center.
- IF IN EYES: Flush with plenty of water. Get medical attention if irritation persists.
- IF ON SKIN OR CLOTHING: Remove contaminated clothing. Wash skin with soap and warm water. Get medical attention if irritation persists.
- IF INHALED: Remove victim to fresh air. Call a physician if effects occur.

Net Weight 12 OZ.

Manufactured by:  
CSA LIMITED, INC.  
HOUSTON, TX 77269

EPA REG. NO. 7056-XXI

EPA EST. NO. 7056-TX-1

**PRECAUTIONARY STATEMENT**

**Hazards to Humans and Domestic Animals**

**CAUTION**

May be harmful if swallowed, inhaled or absorbed. Avoid contact with skin and eyes. Wash thoroughly with plenty of water. In case of poisoning, get prompt medical aid.

Do not use in commercial food processing preparation areas. In the home, all food processing surfaces during treatment, or thoroughly washed before used or removed.

Remove pets, birds and cover fish aquariums before use. Do not allow children or pets to contact treated surfaces until dry.

**Physical or Chemical Hazards**

Contents under pressure. Do not use or store in a punctured or incrimated container. Exposure to fire may cause bursting.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with the label. **SHAKE WELL BEFORE USE. KEEP CAP ON.**

**General:** Use Residual Spray from MULTICID<sup>®</sup> Insecticide and Crevice treatment to control cockroaches, ants and other insects listed below. Apply this product and crevice treatment to localized areas where pests are found. Repeat as needed.

**FOR SPOT TREATMENT:**

**To Kill Ants, Cockroaches, Crickets, Silverfish and other Insects:** Spray areas where these pests are found or may be found. Spray in cracks and crevices in walls; along baseboards, behind and beneath sinks, stoves, refrigerators, plumbing and other utility installations. Pests sprayed directly. For ants, apply to ant trails wherever else these pests may find entrance.

**To Kill Brown Dog Ticks and Fleas:** Thoroughly spray areas such as pet beds and resting quarters, and behind baseboards, window and door frames and in these areas where these pests may be present. Old bedding should be replaced after treatment. **Do Not Spray Pet**

**FOR CRACK AND CREVICE:**

**To Kill Ants, Cockroaches, Crickets, Silverfish, Fleas, and Carpet Beetles:** Apply diluted spray and crevice treatment. Equipment capable of delivering spray between different elements of construction, not leading to voids and hollow spaces in walls, or where insects hide.

Care should be taken to avoid depositing the product into the air. Avoid contact with surfaces.

**Fleas and Mosquitoes:** Use only out of doors at these insects. Spray outside surfaces of windows and doors (such as under eaves) or porches, where they may congregate. Fleas and mosquitoes coming in from outdoors should be treated when necessary.

**STORAGE AND DISPOSAL**

- Storage: Store in a cool, dry area.
- Disposal: Replace cap and discard or incinerate or puncture.
