DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

De not use as a space saray indoors,

To be used in and around homes, apartments, connercial buildings, tennels, barns, patios, institutions, warehouses, theaters, office buildings, schools, notels, hotels, transformers, electrical homes and those areas where wasps, hornet and yellow jacket nests are generally located.

To operate, remove protective cap and depress button, being sure to aim spray opening at the location to be sprayed. Direct spray at wasps, hornets and yellow jackets whenever possible and under eaves, into nests, cracks, holes or crevices wherever insects are noticed. Spray for about 10 seconds or until surface is noist from insecticide. To prevent entrance of insects into the house, spray around points where outside plumbing, faucets, etc. enter the house and into any cracks or crevices in foundation as well as along sills and ledges.

Kills wasps, hornets and yellow jackets. This spray is fast-acting when insects are hit directly. With the branze at back, thoroughly spray nest until it is soaked. This container delivers a stream type spray, making it possible for the operator to stay back from the places sprayed. Application should be made in evening when the hornets are at rest. This formulation utilizes synergized Dendiocarb, a combination specifically effective on this class of insects. Altow about 24 hours for those insects which were not directly hit by spray to leave the area. If insects should return to the treated area, spray again.
