Formulated with Patent Pending Water-Based Technology, CSA AEROSOL INSECTICIDE FORMULA SEVEN kills wasps, hornets, yellow jackets, and bees.

This foam prevents wasps and other pests from flying away while the ingredients act to kill these unwanted pests. Foam sprays up to 22 feet.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS **CAUTION:** Harmful if swallowed or absorbed through skin. Avoid breathing spray mist. Avoid contact with skin and eyes. Wash hands thoroughly with soap and water after use.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not apply to water. Drift and runoff from treated sites may be hazardous to fish in adjacent waters

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130 °F may cause container to burst. Do not apply this water-based product in conduits, motor housings, junction and switch boxes, or other electrical equipment because of possible shock hazards. Do not use on surfaces that may be damaged by water.

ACCEPTED

JUL 0 9 1998

Under the Federal Insecticide, Fundicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 7056-180

STATEMENT OF PRACTICAL TREATMENT

IF ON SKIN OR CLOTHING: Remove contaminated clothing. Thoroughly wash skin with soap and water. Get medical attention if irritation persists.

IF SWALLOWED: Call a physician or poison control center.

IF IN EYES: Flush with plenty of water. Seek medical attention if irritation persists.

IF INHALED: Remove affected person to fresh air. Call a physician if adverse reactions occur.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

READ ALL DIRECTIONS BEFORE USING THIS PRODUCT. SHAKE CONTAINER WELL SEFORE USE. HOLD CONTAINER UPRIGHT DURING USE.

Do not apply directly to food. In food processing areas, all utensils, shelving, etc. where food will be handled should be covered or removed before treatment, or thoroughly washed with an effective cleaning compound followed by a potable water rinse prior to use.

TO KILL WASPS, HORNETS, YELLOW JACKETS, AND BEES: Foam sprays up to 22 feet. Application should be made in late evening when insects are at rest. Do not spray directly into the wind. Aim nozzle at nest and epress actuator until nest is encased in foam. This foam prevents wasps and other pests from flying away. Repeat as necessary.

TO KILL FIRE ANTS: Kills and temporarily reduces annoyance of these insects. To reduce annoyance from these ants and keep them from entering homes, spray the foam directly on patios, barbecue areas, driveways, door sills, window sills, other entrance areas, foundations of buildings, ant trails, around pools, and areas where the arits are noticed. This treatment will not kill the colonies, but will reduce the immediate population for up to four hours. Repeat as necessary.

TO KILL ANTS: Spray the foam on trails, nests, hills, and points of entry. Spray directly on ants where possible. Repeat as necessary.

TO KILL SPIDERS: (including Black Widow and Brown Reduse): Spray the foam in short bursts directly on spiders. Repeat as necessary.

TO CONTROL NUISANCE PESTS:

COCKROACHES, CRICKETS, SILVERFISH, EARWIGS. SOWBUGS, CENTIPEDES, AND MILLIPEDES: Spray the foam directly on areas infested with these nuisance pests. Repeat as necessary.

STORAGE AND DISPOSAL

Storage:

Keep in locked storage area. Store in a cool dry place, away from heat, sparks, and open flame. Do no store at temperatures over 130 °F. Do not contaminate water, food or feed by storage and disposal.

Disposal:

Securely wrap container in several layers of newspaper and discard in trash.
