contamination control dry mat

When used as directed, bacteria in contact with the surface of the mat are significantly reduced in number.

DIRECTIONS FOR USE:

1. The **Sentry** Frame should be wiped clean with an oil-free dry cloth to remove dirt and foreign matter before installing each refill.

2. Remove cellophane shrink-wrap from **Sentry** Mat Refill package and pull off the protective paper from each adhesive strip on the bottom side of the first refill pad.

3. Install the first refill pad, tape side down, onto the metal frame. Care must be used to allow proper margins along each edge of the refill to assure a good fit within the frame. Now, in the same manner, install the two remaining refill pads. Walk across each white cover sheet to secure the mats to the frame.

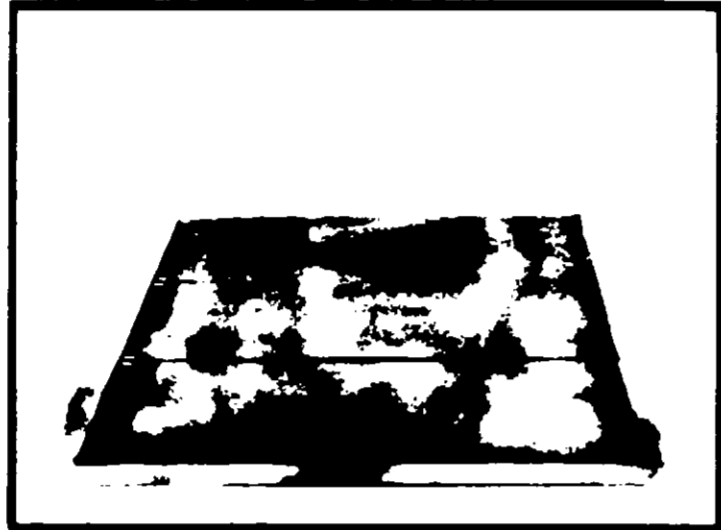

4. Remove the cover sheet from each refill pad and the **Sentry** Mat is ready to use. Avoid contacting the mat with water during floor cleaning.

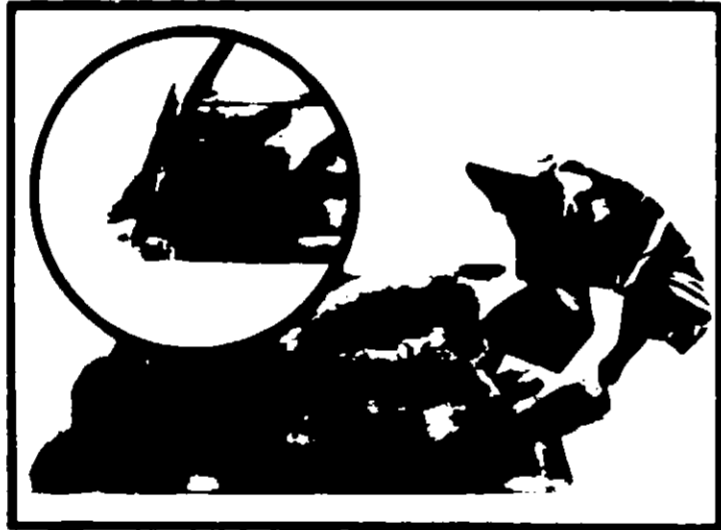

5. When top sheet becomes soiled, replace

3. Install the first refill pad, tape side down, onto the metal frame. Care must be used to allow proper margins along each edge of the refill to assure a good fit within the frame. Now, in the same manner, install the two remaining refill pads. Walk across each white cover sheet to secure the mats to the frame.

4. Remove the cover sheet from each refill pad and the **Sentry** Mat is ready to use. Avoid contacting the mat with water during floor cleaning.

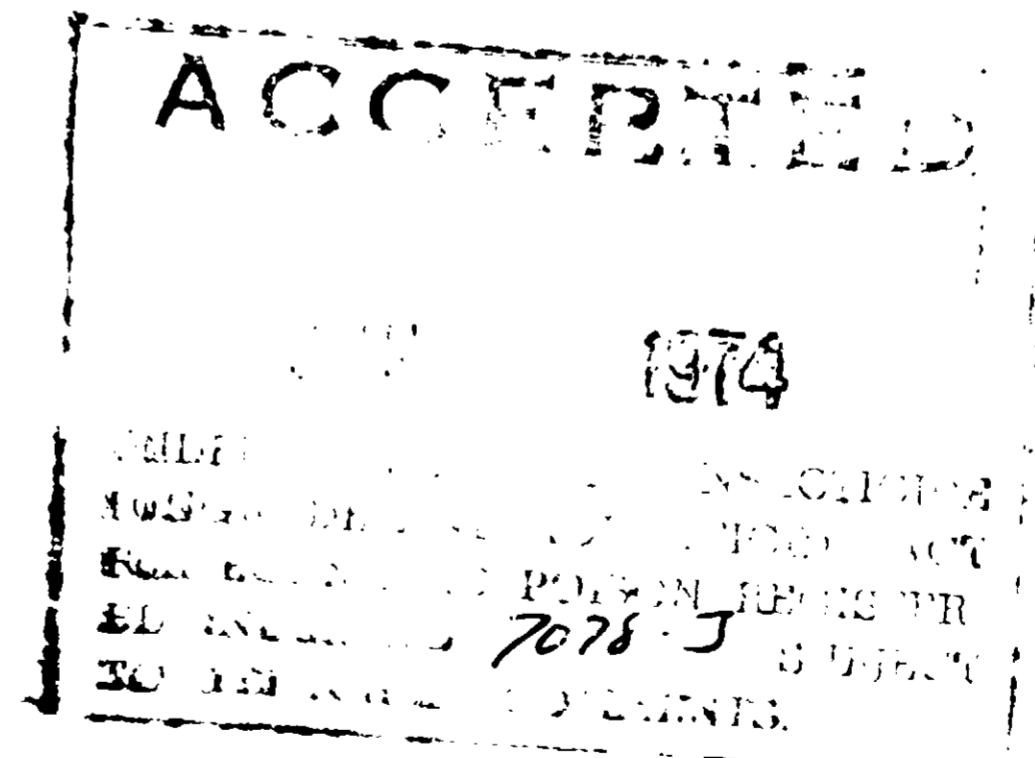

5. When top sheet becomes soiled, replace by grasping the convenient pull-tabs and pulling the soiled sheet back toward you at a low angle. Use a steady pulling pressure to avoid tearing the sheet. In disposing of soiled sheet, adhesive side should be rolled to the inside prior to disposal.

CAUTION:
 Keep out of the reach of children. Avoid prolonged skin contact with adhesive surface as it may cause skin irritation. Avoid getting in eyes. In case of eye contact, flush with water immediately. This product is not intended to replace routine cleaning and disinfection procedures.

NET CONTENTS:
 1 Refill, 3 pads (17 1/2" x 45 1/2") per refill, 20 sheets per pad.

Store in cool area
 EPA Reg No 7078-3
 EPA Est No 7078-TX-1

ACTIVE INGREDIENTS:
 1,2-benzisothiazolin-3-one 1.6%
 INERT INGREDIENTS 98.4%
 TOTAL 100.0%
