PARAPEL BAIT IS OIL IMPREGNATED!

To ensure the most effective and highest quality bait, this product has been prepared in a two-step operation.

- 1.) The active ingredient was dissolved in mineral oil to form a concentrate.
- 2.) This mineral oil concentrate was then used to impregnate the bait.

This process gives the following advantages:

- a.) The mineral oil aids in the preservation of the bait, thus reducing the possibility of rancidity that may cause bait rejection.
- b.) Impregnation reduces the possibility of the toxicant detaching itself from the bait.

* Chlorophacinone-Liphadione -- Patented in the U.S.A.

CAUTION
KEEP OUT OF REACH OF CHILDREN

Keep away from humans, domestic animals and pets. If swallowed or absorbed by humans, domestic animals or pets, this material may reduce the clotting ability of the blood and cause bleeding. In that case, intravenous and oral administration of Vitamin K combined with blood transfusions are indicated as in the case of hemorrhage caused by overdose of bithydroxycoumarin. Call a physician immediately. Bait should be placed in areas inaccessible to children, pets, wildlife and domestic animals or in tamper proof bait boxes.

Keep out of lakes, streams, or ponds.

Do not reuse container. Destroy when empty.

Do not indiscriminately clean or dispose of equipment, or disposal of wastes, with this product only as specified on label.

GENERAL DIRECTIONS

Place baits in locations where Norway Rats, Roof Rats and House Mice feed, water and/or travel. Bait placements along walls, in corners, and in concealed locations where such rats and mice can feed unobserved are desirable. Contaminated or spoiled baits should be replaced promptly.

DIRECTIONS FOR RAT CONTROL

Each station should contain at least 4 to 16 ounces of bait. Maintain constant supply of bait at stations for at least 10 days.

DIRECTIONS FOR MOUSE CONTROL

- a.) Tablespoon amounts (1/4 to 1/2 ounce) of bait should be placed 8 to 12 feet intervals.
- b.) An uninterrupted supply of bait should be maintained for at least 15 days.

Notice: Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given here-with.
