

DIRECTIONS

IMPORTANT: SPRAY, PAINT OR APPLY TO SURFACES UNTIL DAMP OR WET.

CRACKS AND WATERBUGS: Thoroughly apply to cracks and crevices or other areas where insects have been running, resting or hiding with a coarse wet spray, a paint brush, an oil can or similar means. Apply under sinks, drainboards, pipes, ice boxes and cabinets. Also treat baseboards and pipes on rough walls and floors. Treat basement corners and drains. Repeat as needed.

ANTS: Thoroughly apply with a coarse wet spray, a paint brush, an oil can or similar means to any trails and areas around door sills and window frames where these pests may enter the premises. It is frequently desirable to treat the openings around water pipes, heat ducts, electric outlets and baseboards where ants come out into the rooms from wall spaces and partitions. Repeat as needed.

SILVERFISH: Thoroughly apply to cracks and crevices and other areas where the insect have been seen resting, running or hiding, with a coarse wet spray, a paint brush, an oil can or similar means. Be sure to treat the baseboards, areas behind shelving, bookcases and storage areas. Repeat as needed.

BROWN DOG TICKS IN PREMISES: Thoroughly apply to cracks or other areas where the insects have been seen resting or hiding with a coarse wet spray, a paint brush, an oil can or similar means. Repeat treatment around baseboards, window sills and door frames, wall cracks, sleeping quarters of pets and localized areas of floors and floor coverings should be made. The frequency and the extent of the applications will depend on the source and the intensity of the infestation. Fresh bedding should be placed in animal quarters following the application. DO NOT treat pets or other animals with this liquid.
