PYRETHRIN EMULSIFIABLE
CONCENTRATE
(Synergized) No. 6600

Active Ingredients: ..85.25%

- Pyrethrins.....1.19%
- *Technical Piperonyl
Butoxide.....11.89%
- Petroleum Oil...72.17%

Inert Ingredients....14.75%

Total 100.00%

*Equivalent to 9.50% (Butyl-
carbityl) (6-propylpiperonyl)
ether and 2.39% related
compounds.

CAUTION (14 pt)

Keep Out Of Reach Of Children
(10 pt)

Mfg. By:

The ArChem Corporation
1514 Eleventh Street
Portsmouth, Ohio 45662

APPLICATION: Best results are ob-
tained when used with a compressed
air hand sprayer which gives a
very fine mist.

Water based sprays when applied
to clothing and other woollens may
cause staining. We suggest a test
on an unexposed portion of the
material. Avoid direct spraying
of food.

GUARDIAN Pyrethrin No. 6600 may
be combined with many of the re-
sidual insects on the market to-
day to give a quick knockdown.

GUARDIAN PYRETHRIN NO. 6600 when
properly applied in proper concen-
trations has versatile properties.

CAUTION

HARMFUL IF SWALLOWED. KEEP OUT OF
REACH OF CHILDREN, PETS, DOMESTIC
ANIMALS AND WILDLIFE.

FIPE HAZZARD: DO NOT USE OR STORE
NEAR HEAT OR OPEN FLAME.

KEEP OUT OF ANY BODY OF WATER. FIS
MAY BE KILLED.

Glass Containers

RINSE EMPTY CONTAINER THOROUGHLY
AND DISCARD IT.

Metal Containers

DO NOT REUSE EMPTY CONTAINER. DES-
TROY BY PERFORATING OR CRUSHING.
BURY OR DISCARD IN SAFE PLACE.

Non-Warranty

Seller makes no warranty, expressed or implied,
concerning the use of this product other than
indicated on the label. Buyer assumes all risk
of use and/or handling of this material when
such use and/or handling is contrary to label
instructions.

EPA REG. NO. 7122-48

Date 2/3/72

Directions for Use

Dilute with water to the following percentages to be used for the different types of work enumerated below:

FOR FOGGING: 1 part Pyrethrin No.6600 to 19 parts of water.

FOR SPACE AND CONTACT SPRAYING: 1 part Pyrethrin No. 6600 to 9 parts water.

TO KILL FLIES, MOSQUITOES AND GNATS:
Close doors and windows, directing the spray up toward the ceiling. The room should be filled with mist and remain closed for 10 to 20 minutes. Sweep up dead insects and burn. Repeat treatment as necessary. The frequent spraying of breeding places also helps. DO NOT REMAIN IN TREATED AREAS. VENTILATE THE AREA AFTER TREATMENT IS COMPLETED.

TO KILL ROACHES, WATERBUGS AND SILVERFISH
Spray liberally with force around refrigerators, sinks, all cabinets around pantry shelves, into all cracks and crevices in moulding and woodwork, pipe openings in walls and floors, or wherever these insects might hide. Repeat as necessary.

TO KILL ANTS: Use the spray so as to wet as many insects as possible paying particular attention to nests or runways. Repeat as necessary.

TO KILL BEDBUGS: Bedsteads should be sprayed thoroughly in all corners, cracks, and crevices. Springs and mattresses should be sprayed thoroughly after the bed has been dismantled, spraying tufts and seams in the mattress. Spray loose mouldings, cracks and crevices.

TO KILL CLOTHES MOTHS AND CARPET BEETLES:
Special care should be given to be sure all cracks and openings- below the baseboards are thoroughly wetted with spray. Clothes when aired should be sprayed at a distance of 3 to 4 feet taking care to see that seams and folds are wetted. Closets should be sprayed at least twice a month, directing the spray on the garments
