

[7122-48]

**DIRECTIONS FOR USE**

Dilute with water to the following percentages to be used for the different types of work enumerated below.

**FOR FOGGING:** 1 part Pyrethrin No. 6600 to 10 parts of water

**FOR SPACE AND CONTACT SPRAYING:** 1 part Pyrethrin No. 6600 to 9 parts water

**TO KILL FLIES MOSQUITOES AND GNATS:** Close doors and windows, directing the spray up toward the ceiling. The room should be filled with mist and remain closed for 10 to 20 minutes. Sweep up dead insects from floor. Repeat treatment as necessary. The frequent spraying of breeding places also helps. **DO NOT REMAIN IN TREATED AREAS VENTILATE THE AREA AFTER TREATMENT IS COMPLETED**

**TO KILL ROACHES, WATERBUGS AND SILVERFISH:** Spray liberally with fog, mould, ceiling, pots, sinks, all cabinets, covered pantry shelves, into all cracks and crevices in mould, up and wood work, pipes, openings in walls and floors, or wherever these insects might hide. Repeat as necessary.

**TO KILL ANTS:** Use the spray on the ants as many as possible, paying particular attention to their nests or runways. Repeat as necessary.

**TO KILL BEDBUGS:** Bedsteads should be sprayed thoroughly in all corners, cracks and crevices. Springs and mattresses should be sprayed thoroughly with the treated fabric or the clothed spraying built up on the mattress. Spray in base mouldings, cracks and crevices.

**TO KILL CLOTHES MOTHS AND CARPET BEETLES:** Special care should be given to the crevices, corners and openings in boxes, trunks, chests, suitcases, and closets. Clothes when stored should be sprayed with the concentrate. To take care of the closets, spray the closets and chests should be sprayed with the concentrate directing the spray on the garments.
