

HY-KLAS 777 acts as an air sanitizer reducing air borne bacteria.

HY-KLAS 777 has a lasting residue to leave the area treated with a fresh clean smell. No sweet perfume odor.

HY-KLAS 777 is very effective for use in restrooms by spraying and fogging, as an adjunct to accepted manual cleaning and disinfecting procedures.

HY-KLAS 777 is very effective for odor control of decaying rodents.

HY-KLAS 777 is recommended for use in homes, schools, hotels, factories, automobiles, or wherever smoke odors are a problem.

HY-KLAS 777 IS TO BE USED AS IS WITH NO FURTHER DILUTION.

DIRECTIONS

The smoke odor spray with a fan-type atomizer must cover the entire treated area. Then fog with a fogger for the entire home or building. One application is generally all that is necessary to give thorough control. Close all doors, windows and vents before application.

When used as directed in a fogging procedure **HY-KLAS 777** may deodorize many surfaces without staining or damage to the surface.

Allow about 2 hours for ventilating the room before returning occupants. We suggest about 1 pint per 1000 cubic feet.

HY-KLAS 777 will cause sneezing and coughing if breathed. The use of a respirator is recommended if contact with the fog is made.

HY-KLAS 777 may cause skin irritation or damage to the eyes if there is exposure. Harmful if swallowed. Avoid contact with skin or eyes. Do not take internally. For eyes, flush with plenty of water. Avoid contact with food.

KEEP OUT OF REACH OF CHILDREN. USE AS DIRECTED.

CONTAINER DISPOSAL

Rinse empty container thoroughly with water and discard.

WARNING: FLAMMABLE! KEEP AWAY FROM HEAT OR OPEN FLAME.
