

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS**

DANGER

Poisonous if swallowed. When mixing dry technique, use rubber gloves and respirator jointly approved by the Mine Enforcement and Safety Administration and the National Institute for Occupational Safety and Health. When handling bulk use rubber gloves. Wash hands thoroughly before eating, drinking, or smoking. Keep pets and domestic animals confined and away from baited areas. Do not contaminate water, food, and foodstuffs.

ENVIRONMENTAL HAZARDS

May be toxic to birds and fish. Avoid animal consumption of baited areas and disposal of bait in water bodies and disposal of refuse.

DIRECTIONS FOR USE

For use only inside sewers against the Norway rat. Use consistently as directed.

MIXING DIRECTIONS

General Mixing Directions: Mix with an applicator's water. Use equipment identified for handling and mixing Fluoracetamide exclusively. Wear rubber gloves and goggles when handling. Avoid contact with Fluoracetamide. When handling bulk, use rubber gloves. Wash hands thoroughly before eating, drinking, or smoking. Keep pets and domestic animals confined and away from baited areas. Do not contaminate water, food, and foodstuffs. Do not dispose of Fluoracetamide in water bodies. Storage and Disposal: Product is a highly flammable liquid containing toxic material.

**DANGER
POISON**

STATEMENT OF PRACTICAL TREATMENT

Fluoroacetamide is a highly flammable liquid. It is a severe irritant to the eyes, skin, and respiratory tract. It is also a poison. In case of fire, use dry chemical, carbon dioxide, or alcohol resistant foam. Do not use water. In case of contact with eyes, flush with water for at least 15 minutes. In case of contact with skin, wash with soap and water. In case of contact with clothing, remove clothing immediately. In case of contact with respiratory tract, move to fresh air. In case of ingestion, do not induce vomiting. Seek medical attention immediately.
