

ACCEPTED

JUN 29 1998

Under the Federal Insecticide,
Fungicide, and Rodenticide Act,
as amended, for the pesticide
registered under
EPA Reg. No. 7124-6

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

PRACTICAL TREATMENT: (First Aid): If swallowed: Promptly drink a large quantity of water. Do not induce vomiting. Call a physician immediately. If on skin: Brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists get medical attention. If in eyes: Flush with cold water for at least 15 minutes. Get medical attention.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not discharge into lakes, streams, ponds, or public waters unless in accordance with an NPDES permit. For guidance contact the Regional Office of EPA.

PHYSICAL AND CHEMICAL HAZARDS: STRONG OXIDIZING AGENT. Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion.

SPECIAL PRECAUTIONS

PLEASE READ BEFORE OPENING CONTAINER

PREVENTION OF PHYSICAL INJURY

1. This product emits a powerful chlorine gas. Do not open container indoors.
-Hold away from face when opening to avoid breathing fumes.
2. This product is dangerous when not used properly.

MISUSE MAY RESULT IN SERIOUS PERSONAL INJURY

REQUIRING HOSPITALIZATION

RELATED COMPLICATIONS MAY LEAD TO DEATH

Do not mix with any other chemicals

Mixing with other chemicals may cause a violent and instantaneous chemical reaction.

Do not add water to this product

Do not add this product to water in a pool

Do not take advice from others

Do not experiment

Follow label instructions exactly.

PREVENTION OF PROPERTY DAMAGE: Contact between this product in its undissolved state and vinyl liners, painted surfaces or other property in or around the pool will result in permanent bleaching of the color.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with labeling.

1. Adjust pool water pH to 7.2 - 7.6 (where copper plumbing is in pool, best pH factor is 7.6 - 7.8).
2. If not previously done, add Conditioner and Stabilizer according to use on the label for that product. Conditioner prevents dissipating chlorine.
3. Use enclosed scoop* to measure dosage. One scoop added to water yields approximately 1.0 ppm. available chlorine.
4. After pool conditioner is added, add 3 scoops of Granules to gallons of water. Test water with chlorine test kit. If no chlor repeat dosage. If chlorine residual is below 1.0 ppm residual create dosage accordingly. Thereafter, check the chlorine a test kit regularly and add sufficient Granules as needed. During a heavy bathing load, test pool chlorine frequently and increase frequency accordingly. pH can fall or rise due to rain the addition of a windblown dust and many other factors. Check pH regularly. pH has a direct effect on the effectiveness of chlorine.
5. There is no substitute for proper pool care. Filters should run 8 hours a day and frequent tests of water should be made to maintain and chlorine residuals.

*Add granules to pool through skimmer.

*1 level scoop equals 1 ounce by weight.

STORAGE AND DISPOSAL: Keep product dry in tightly closed container. Store in a cool, dry well-ventilated area away from heat or open flame. Do not use empty container in open area if possible, and flush of water. Do not reuse empty container. Rinse empty container thoroughly with water before discarding. Place in trash collection or landfill area.
