

DIRECTIONS

Nu-Clo Copper Algaecide works best when added to a freshly cleaned pool.

DOSAGE

Nu-Clo Copper Algaecide should be used at the rate of one gallon of Nu-Clo Copper Algaecide to every 11,000 gallons of pool water. Add proportionate amounts according to pool size. Apply the recommended dosage by pouring directly in pool water along the entire outer edge of the pool.

KEEP OUT OF REACH OF CHILDREN

- One application lasts for a full swim season.
- Keeps pool water clear and free of algae.
