

**ATTACKS AND DESTROYS ALGAE ON POOL SIDES AND FLOORS  
DIRECTIONS FOR USE**

Algae Cure will amaze you with its speedy action. Shut off filter pump and allow water to settle. Do not start pump for 6 hours. Sprinkle generously along the walls where algae appears and over the surface of the water where algae is seen on pool bottom. It will settle through the water and kill the algae in a matter of hours. Two pounds will treat 10,000 gallons of pool water. If entire pool is treated according to above dosage, do not use pool for 24 hours. If small patches are treated on less than 1/2 pound per 10,000 gallons is used no restrictions on pool use need be imposed.

**CAUTION:**

Under certain conditions this product, because of its potency, may remove color from vinyl lined and painted pools. Discoloration can be prevented by brushing the granules lightly with a pool brush after they settle to the floor of the pool. The brushing action and movement of the granules distributes the strength so that the full effect is not concentrated on any one spot which may cause bleaching.

U.S.D.A.

Keep out of reach of children. Strong oxidizing material. Keep clothing. In case of contact with cold water for at least 15 minutes. Attention. Avoid breathing dust. May cause fire. Moisture may cause fire. Hazardous when in contact with open flame. Keep in original place when not in use. Discard if for re-use.

**POISON**
