UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

Alden Leeds, Inc.
55 Jacobus Ave.
South Kearny, NJ 07032

APR 18 1996

Attention: Mark Visconti

Subject: Aqua-Trol Premium Grade Algaecide
EPA Registration Number 7124-56
Your Submission Dated February 9, 1996
EPA Received Date February 14, 1996

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, to update and revise product labeling as per our letter of January 29, 1996, is acceptable.

A stamped copy of the labeling is enclosed for your records.

However at the next printing of your labeling, revise the first sentence of the "Environmental Hazards" statement: "This product is toxic to fish and aquatic organisms" to read "This pesticide is toxic to fish and aquatic organisms."

Please submit one (1) copy of final printed labeling incorporating the label revision as mentioned above.

If you have any questions concerning this letter, please contact Karen M. Leavy-Munk at (703)-305-6966.

Sincerely yours,

Marion J. Johnson
Product Manager (31)
Antimicrobial Program Branch
Registration Division (7505C)

this product for the purposes
registered under EPA Reg. No.

7124-56

Aqua-trol™

PREMIUM GRADE algaeicide

E.P.A. Reg. No. 7124-56
E.P.A. Est. No. 7124-NJ-1

DANGER:

KEEP OUT OF REACH OF CHILDREN

See back panel for first aid and additional precautionary statements.

ACTIVE INGREDIENTS:

n-Alkyl (60% C 14, 30% C16, 5% C12, 5% C18)	
Dimethyl Benzyl Ammonium Chlorides.....	4.98%
dialkyl (60% C 14, 30% C16, 5% C12, 5% C18)	
Methyl Benzyl Ammonium Chlorides.....	0.02%
INERT INGREDIENTS.....	95.0%
TOTAL	100.0%

NET CONTENTS: ONE GALLON (3.785 LITERS)

PLACE BACK AND FRONT PANEL OPPOSITE

SINGLE COLOR - PANTONE GREEN

Aqua-trol

PREMIUM GRADE algaeicide

PRECAUTIONARY STATEMENTS HAZARDOUS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Keep out of reach of children. Corrosive, cause severe eye and skin damage. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food. Rinse empty container thoroughly with water and discard it.

STATEMENT OF PRACTICAL TREATMENT: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly large quantity of egg whites, gelatin solution or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

Manufactured by:
ALDEN LEEDS, INC.
55 Jacobus Ave., So. Kearny, NJ 07032

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

When this product is used as directed, it will control and inhibit the development of *Chlorella Pyrenoidosa* (Green), *Phormidium Inundatum* (Black algae), *Phormidium Retzii* (Square D Algae), *Lynoba Veriscolor* (Blue-Green) and other swimming pool algae. This product is compatible with most commonly used swimming pool chemicals, but should not be mixed with soap and other cleaners or premixed with other water-treating chemicals. This product works best when added by itself to pool water. This product at use dilution is non-corrosive to inanimate surfaces.

INITIAL DOSE: 2 gallons of this product to 50,000 gallons of water.

MAINTENANCE DOSE: 2 quarts of this product to 50,000 gallons of water.

Initial dose is used when filling pool at beginning of swimming season. If pool has visible algae growth, treat with initial dose. Vacuum pool after 24 hours to remove algae debris. If visible algae are still present or reappear, repeat this treatment procedure as necessary. When pool is free of visible algae, use the recommended maintenance dose.

Maintenance dose should be added at 3-5 day intervals. If high temperatures prevail or pool has unusually heavy use, add maintenance dose more frequently. If makeup water is added at the rate of more than 10% per week of pool capacity, add 2 quarts of this product for each 10,000 gallons of fresh makeup water added per week.

When swimming season is over, add 2 gallons of this product to 50,000 gallons of water in treating water left in pool. This dose helps provide a measure of control of algae growth during the winter months. This treatment will also help the servicing of the pool before it is returned to use the following season.

STORAGE AND DISPOSAL

STORAGE: Keep container closed when not in use. Leaking or damaged containers should be placed in a plastic bag and discarded in trash. Mop up spills with clean water. All pesticides should be kept out of reach of children and stored away from food.

DISPOSAL: Do not reuse empty container. Rinse thoroughly. Securely wrap in several layers of newspaper and discard in trash.
