

Highly Irritative. Causes skin and eye damage. May be fatal if swallowed. Avoid contact with eyes, skin or clothing. Wear goggles or face shield and rubber gloves when handling. Rinse thoroughly with water. Avoid breathing dust. Rinse and wash face and clothing thoroughly before use.

This product is toxic if it is not discharged into lakes, streams, ponds or public waters unless in accordance with an NPDES Permit. For guidance contact the regional office of EPA.

Strong Oxidizing Agent. Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases and possible generation of fire and explosion. In case of contamination or decomposition, do not reuse container. If possible, isolate container in open or well-ventilated area. Flush with a large volume of water if necessary.

If swallowed, feed bread soaked in milk followed by olive oil or cooking oil. Call a physician immediately.

If on skin, brush off excess chemical and flush skin with cold water for at least 15 minutes. Irritation persists, get medical attention.

If in eyes, flush with cold water for at least 15 minutes. Get medical attention.

1. This product has a powerful oxidizing action. Hold away from face when opening to avoid breathing fumes.

2. Prolonged contact between this product and undissolved state and various types of painted surfaces will result in bleaching of the color. Do not introduce this product through the skimmer or in a pressurized feeder to avoid discoloration of liner or paint.

3. When adding this product to skimmer or feeder make sure there are no other chemicals present as a violent reaction may occur. It is always dangerous to mix chemicals.

4. Use this product as directed as per instructions on label. Do not take advice from others or experiment by yourself.

5. If this product is used to shock or superchlorinate a pool, after treatment it is important to brush walls and floor to expose algae that may be in cracks or crevices that might protect algae from high chlorine residual. Such protected algae will begin to reproduce again when high chlorine residual falls.

6. This product because of its potent formulation can be dangerous if not used properly. Do not

NET WEIGHT 40 LBS.

CAUTION: This product is highly irritant. Avoid contact with eyes, skin or clothing. If contact occurs, flush with water for at least 15 minutes. If swallowed, drink water and seek medical attention. Do not breathe dust. Rinse and wash face and clothing thoroughly before use.

Add 1 tablet per 20,000 gallons of water. For sparkling pools, add 1 tablet per 10,000 gallons. For maintenance, add 1 tablet per 20,000 gallons every 24 hours. For shock treatment, add 10 tablets per 20,000 gallons. For algae control, add 1 tablet per 20,000 gallons every 7 days. For stain fighting, add 1 tablet per 20,000 gallons every 7 days. For pH adjustment, add 1 tablet per 20,000 gallons every 7 days. For water softening, add 1 tablet per 20,000 gallons every 7 days. For odor control, add 1 tablet per 20,000 gallons every 7 days. For disinfection, add 1 tablet per 20,000 gallons every 7 days. For general pool maintenance, add 1 tablet per 20,000 gallons every 7 days.

Keep product dry. Do not use in hot sun or near heat. Store in a cool, dry, well-ventilated area away from heat or open flame. In case of decomposition, isolate container if possible and flood with large amounts of water to dissolve all material before disposing. Place in trash to collect, dispose, incinerate and area properly treated.
