

<p>US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (75-767) WASHINGTON, DC 20460</p> <p>NOTICE OF PESTICIDE: <input type="checkbox"/> REGISTRATION <input checked="" type="checkbox"/> REREGISTRATION (Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)</p>	EPA REGISTRATION NO. 7124-68	DATE OF ISSUANCE MAY 17 1996
	TERM OF ISSUANCE	
	NAME OF PESTICIDE PRODUCT Nu-Clo Quick Dissolving Chlorinating Tablets 1-A-Day, 35,000 Gallons	
	NAME AND ADDRESS OF REGISTRANT (Include ZIP code)  Alden Leeds, Inc. 55 Jacobus Avenue So. Kearny, NJ 07032	
<p>NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.</p>		
<p>On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.</p>		
<p>A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.</p>		
<p>Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.</p>		
<p>Based on your response to the Reregistration Eligibility Document, EPA has reregistered the above named product subject to the comments recorded in the succeeding paragraph. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.</p>		
<p>Make the following labeling changes before you release the product for shipment:</p>		
<ol style="list-style-type: none"><li>1. Revise the Precautionary Statements and Statement of Practical Treatment in accordance with Attachment A for Batch 27 products.</li><li>2. Delete "and related Compounds" from the ingredient statement.</li><li>3. Include the following re-entry statement: "Reentry into treated swimming pools is prohibited above levels of 3 ppm of chlorine".</li></ol>		
<p><input type="checkbox"/> ATTACHMENT IS APPLICABLE</p>		
SIGNATURE OF APPROVING OFFICIAL		DATE

## ATTACHMENT A - PRECAUTIONARY LABELING - Batch 27

1. The signal word is "Danger".
2. The Precautionary Statements should read:

" Corrosive: Causes irreversible eye damage. Causes burns. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin or on clothing. Wear goggles, face shield or safety glasses. Wear protective clothing and rubber gloves. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse."

3. The statements of Practical Treatment should read:

"If in eyes: Hold eyelids open and flush with a steady gentle stream of water for 15 minutes. Get medical attention."

" If on Skin: Wash with plenty of soap and water. Get medical attention."

" If swallowed: Drink promptly a large quantity of water. Avoid alcohol. Get medical attention. "

Note to physician: Probable mucosal damage may contraindicate use of gastric lavage."

4. Under the "Environmental Hazards" statement revise the first sentence to read: "This pesticide is toxic to fish and aquatic organisms".

A stamped copy of the product label is enclosed for your records.

Submit one copy of the final printed labeling before releasing the product in channels of trade with the revised labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

Walter C. Francis  
Acting Product Manager 32  
Antimicrobial Program Branch  
Registration Division (7505C)

# PRECAUTIONARY STATEMENTS

## HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**DANGER:** Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

**PRACTICAL TREATMENT; First Aid:** If swallowed: Promptly drink a large quantity of water. Do not induce vomiting. Avoid alcohol. Call a physician immediately. If on skin: Brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists get medical attention. If in eyes: Flush with cold water for at least 15 minutes. Get medical attention.

**ENVIRONMENTAL HAZARDS:** This product is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

**PHYSICAL AND CHEMICAL HAZARDS: STRONG OXIDIZING AGENT.** Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gasses and possible generation of fire and explosion.

## SPECIAL PRECAUTIONS

### PLEASE READ BEFORE OPENING CONTAINER PREVENTION OF PHYSICAL INJURY

1. This product emits a powerful chlorine gas. Do not open container indoors:
  - Hold away from face when opening to avoid breathing fumes.
2. This product is dangerous when not used properly:

### MISUSE MAY RESULT IN SERIOUS PERSONAL INJURY REQUIRING HOSPITALIZATION

#### RELATED COMPLICATIONS MAY LEAD TO DEATH

- Do not mix with any other chemicals
- Mixing with other chemicals may cause a violent and instantaneous chemical reaction
- Do not add water to this product
- Do not add this product to water in a pail
- Do not take advice from others.
- Do not experiment. Follow label instructions exactly.

**PREVENTION OF PROPERTY DAMAGE:** Avoid contact of this product in its undissolved state and vinyl liners, painted surfaces or other property in or around the pool will result in permanent bleaching of the color.

MAY 17 1996

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide registered under EPA Reg. No.

ON BACK PANEL BEFORE OPENING CONTAINER

NET WT. 15 LBS. (18 kg)

## DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

1. Adjust water pH to 7.2 - 7.6. For pools with copper plumbing best pH factor is 7.6 - 7.8.

2. If the pool has not been previously stabilized with Stabilizer and Conditioner (cyanuric acid) add the correct dosage. Follow the directions for use on a label for that product.

3. Add 3 tablets for every 35,000 gallons of pool water. Each tablet weighs 8.75 ounces. This should be sufficient to satisfy demand of raw water and establish a chlorine residual. If there is no chlorine residual on the following day repeat dosage until chlorine is found on the following day before feeding at least in the amount of 1.0 ppm. Thereafter use 1 tablet per 35,000 gallons daily or as needed to maintain a minimum chlorine residual of 1.0 ppm to 1.5 ppm as determined by test kit. During heat waves or periods of heavy bathing load, more tablets will be required per day to maintain chlorine residual. Also check pH to keep in proper range as pH has a direct effect on chlorine action. These tablets reduce the need for addition of chemicals to adjust pH. But pH should be brought back to range if it falls or climbs due to rain, make-up water, wind blown dust, or any other reason. Add tablets through skimmer or in an appropriate floating chlorinator. Tablets will dissolve in approximately 15 minutes. Pool should not be entered until the chlorine residual is below 3.0 ppm.

**STORAGE AND DISPOSAL:** Keep product dry in tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. In case of decomposition isolate container, if possible, and flood with large amounts of water to dissolve all material before discarding. Place in trash collection or dispose in approved landfill area, or bury in a safe place.
