

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND  
DOMESTIC ANIMALS**

**CAUTION:** Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes, or clothing.

**FIRST AID:** If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or, if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish. Keep out of lakes, streams, or ponds. Permits may be required for discharges containing this pesticide into lakes, streams, ponds or public water. For guidance, contact the regional office of the Environmental Protection Agency.

**STORAGE & DISPOSAL:** Keep container closed when not in use. Do not contaminate water, food, or feed by storage, disposal, or cleaning of equipment. Do not reuse empty container. Triple rinse (or equivalent) and dispose of container in an incinerator or in an approved landfill, or bury in a safe place. Rinse that cannot be used or reprocessed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies. Open dumping is prohibited.

7124-76  
DEC 0 1 1980  
Under the Federal Insecticide,  
Fungicide, and Rodenticide Act,  
as amended, for the pesticide  
registered under  
EPA Reg. No.

**DIRECTIONS FOR USE  
GENERAL CLASSIFICATION**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Sparkle Non Foaming Algaecide is used to control the growth of algae in exterior spas, whirlpools, and hot tubs. For maximum effectiveness, spas, whirlpools, or hot tubs containing heavy growth of algae should be cleaned prior to using Sparkle Non Foaming Algaecide.

For spas, whirlpools, or hot tubs having just visible algae growth add an initial dose of 8 to 12 fluid ounces of Sparkle Non Foaming Algaecide per 1,000 gallons of water. For treatment of a freshly cleaned and filled spa, whirlpool, or hot tub, add initially 4 to 8 fluid ounces of Sparkle Non Foaming Algaecide per 1,000 gallons of water.

To maintain spas, whirlpools, or hot tubs free of visible algae growth, subsequent additions of 1 to 3 fluid ounces of Sparkle Non Foaming Algaecide should be made every 5 to 7 days after initial treatment.

Sparkle Non Foaming Algaecide is compatible with those chemicals normally used to treat spas, whirlpools, and hot tubs and is effective at both acid and alkaline pH. Sparkle Non Foaming Algaecide can be used in spas, whirlpools, and hot tubs treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix Sparkle Non Foaming Algaecide with concentrated dry or liquid chlorine products.
