

US ENVIRONMENTAL PROTECTION AGENCY
OFFICE OF PESTICIDES PROGRAMS
REGISTRATION DIVISION (75-767)
WASHINGTON, DC 20460

EPA REGISTRATION NO.

7124-78

DATE OF ISSUANCE

13 AUG 1987

TERM OF ISSUANCE

NOTICE OF PESTICIDE:

REGISTRATION
 REREGISTRATION

(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

NAME OF PESTICIDE PRODUCT

MORE CHLOR 65 CHLORINATING
GRANULAR

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Alden Leeds, Inc.
55 Jacobus Avenue
South Kearney, NJ 07032

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

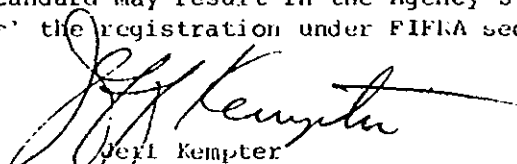

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the General Registration Standard - "Guidance for the Registration and Reregistration of Pesticide Products Containing Sodium or Calcium Hypochlorite as the Sole Active Ingredient"---issued February 1986 and revised April 1986, EPA has reregistered the product listed above in accordance with FIFRA section 3(g).

Your amended label has been stamped approved and a copy is enclosed. You must incorporate any comments noted on your label. This label must be on products released for shipment within 1 year or by the next label printing, whichever occurs first. This label must also appear on all supplemental registrations within 1 year of this Notice of reregistration or at the next label printing, whichever occurs first.

Your product meets the criteria for reregistration under this standard. Failure to comply with this Standard may result in the Agency's issuance of a Notice of Intent to Cancel the registration under FIFRA section 6(D)(1).

ACCEPTED
with **COMMENTS**
in EPA Letter Dated:

AUG 13 1987

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide registered under EPA Reg. No.

7124-78

IF SWALLOWED: DRINK large quantities of milk or gelatin solution. If these are not available, drink large quantities of water.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Do not handle with bare hands. Wear goggles or face shield and use rubber gloves and only thoroughly clean, dry utensils when handling. Irritating to nose and throat. Avoid breathing dust and fumes. Remove and wash contaminated clothing before reuse.

FIRST AID (PRACTICAL TREATMENT):
IF ON SKIN: Brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention.
IF INHALED: Remove person to fresh air. Get immediate medical attention.

IF IN EYES: Flush with cold water for at least 15 minutes. Get immediate medical attention.

CHEMICAL HAZARDS: Danger: Strong oxidizing agent. Mix only into water. Contamination may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible fire and explosion. Avoid any contact with flame or burning material, such as a lighted cigarette. Do not contaminate with moisture, garbage, dirt, organic matter, chemicals, including other pool chemicals, pool chlorinating compounds, household products, cyanuric acid pool stabilizers, soap products, paint products, solvents, acids, vinegar, beverages, oils, dirty rags or any foreign matter. Do not use moist or damp utensils.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not contaminate lakes, ponds, or streams by cleaning of equipment or disposal of wastes.

SPECIAL PRECAUTIONS PLEASE READ BEFORE OPENING CONTAINER

PREVENTION OF PHYSICAL INJURY:

1. This product emits a powerful chlorine gas. Do not open container indoors.
Hold away from face when opening to avoid breathing fumes.

2. This product is dangerous when not used properly.
**MISUSE MAY RESULT IN SERIOUS PERSONAL INJURY REQUIRING HOSPITALIZATION
RELATED COMPLICATIONS MAY LEAD TO DEATH**

Mixing with other chemicals may cause a violent and instantaneous chemical reaction.
Do not mix with any other chemicals.

Do not add water to this product.
Do not add this product to water in a pool.
Do not take advice from others.
Do not experiment.

Follow label instructions exactly.

PREVENTION OF PROPERTY DAMAGE: Contact between this product in its undissolved state and vinyl liners, painted surfaces or other property in or around the pool will result in permanent bleaching of the color.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
Proper dosages of More Chlor 65 will control growth of algae and effectively kill many bacteria which may cause infection.

INITIAL DOSAGE: Add 1 ounce of More Chlor 65 for each 1,000 gallons of water. The initial chlorination dose should be repeated until a chlorine residual of 0.6 to 1.0 p.p.m. is obtained. The scoop enclosed in this container holds one ounce by weight.

MAINTENANCE DOSAGE: Add one ounce per 5,000 gallons daily or as needed to maintain a residual of 0.6 p.p.m. to 1.0 p.p.m. of available chlorine as determined by the use of a chlorine test kit. Keep pH in range between 7.2-7.6.

APPLICATION MAY BE MADE USING ONE OF THE FOLLOWING METHODS:

SKIMMER: Use this method to avoid bleaching vinyl liner or paint. Empty skimmer of all chemicals and/or debris. Make sure that filter is on and that water is properly recirculating through skimmer. Remove any chemicals that may be in an in-line automatic chemical dispensing device. Scoop More Chlor 65 slowly into skimmer, making sure that the material is drawn into the system at the same rate; do not allow this material to accumulate as gases generated may cause an explosion.

DOSE DIRECTLY INTO POOL: Broadcast dosage across surface of water. To prevent liner damage, use skimmer method above. One ounce of More Chlor 65 will add 1.0 p.p.m. available chlorine to 5,000 gallons of water. During hot sunlit days, or when bathing load is heavy, test water frequently as available chlorine may dissipate rapidly. Maintain chlorine residual between 0.6 p.p.m. and 1.0 p.p.m. at all times.

STORAGE AND DISPOSAL

STORAGE: Keep product in dry, tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame.
DISPOSAL: Do not reuse empty container. Rinse empty container thoroughly with water to dissolve all material before discarding. Place in trash or dispose in approved landfill area.

EMERGENCY HANDLING: In case of contamination or decomposition, do not reuse container. If possible, isolate container in open and well-ventilated area. Flood with large volumes of water.
