Spa*rtle Indicide Industrial Algaecide

ACCEPTED
with COMMENTS
in EPA Letter Dated:

JAN 3 1985

Indicide, Inc.
P.O. Box 100
Bridgewater, NJ 08807
EPA Reg. No. 7124-86

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with the label directions.

Indicide is used to control the growth of algae, bacteria and other organisms in industrial water cooling towers. Prior to the use of Indicide, the cooling tower should be cleaned to remove algal growth, microbiological slime and other deposits. Make a slug addition of 0.9 to 2.2 fluid ounces of Indicide per 1000 gallons of water (based on the total weight of water in the system). Repeat slug additions of 0.2 to 2.2 fluid ounces (20 ppm Indicide) every 2 to 5 days or as needed. The frequency of addition depends upon the rate of algal growth and the severity of the microbiological problem. Make subsequent slug additions of 0.2 to 2.2 fluid ounces (20 ppm Indicide) every 2 to 5 days or as needed. The frequency of addition depends upon the rate of algal growth and the severity of the microbiological problem. Make subsequent slug additions of 0.2 to 2.2 fluid ounces (20 ppm Indicide) every 2 to 5 days or as needed. The frequency of addition depends upon the rate of algal growth and the severity of the microbiological problem. Make subsequent slug additions of 0.2 to 2.2 fluid ounces (20 ppm Indicide) every 2 to 5 days or as needed. The frequency of addition depends upon the rate of algal growth and the severity of the microbiological problem.

Indicide is used to control bacteria in industrial air wash systems. Prior to its use, systems should be cleaned to remove other deposits. An initial slug dose of 3.33 to 5.55 fluid ounces per 1000 gallons of water is recommended. Repeat initial dosage until control is evident. The frequency of addition depends upon the rate of bacterial growth and the severity of the problem. Slug additions may be made to the sump wash system.

Indicide is used to control the growth of algae in decorative fountains. Algal growths of algae should be manually cleaned prior to treatment. To treat a freshly cleaned and filled fountain, add 0.2 to 0.5 fluid ounces of Indicide per 1000 gallons of water. Maintenance dosages of 0.2 to 0.5 fluid ounces should be added every 5 to 7 days as needed. Additions of Indicide should ensure uniform distribution throughout the system. Indicide is not a chlorine chemical, but do not mix Indicide with concentrated chlorine chemicals.

Indicide will retard microbial growth that causes degradation of the make-up water and the length of storage of the board that will contact food.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Do not stack more than four drums high. Leaking drums should be placed in a container for disposal. Spills should be absorbed in sawdust or sand and the container closed when not in use.

PESTICIDE DISPOSAL: Wastes resulting from the use of this pesticide should be disposed of at a government approved waste disposal facility.

CONTAINER DISPOSAL:

- PLASTIC:** Triple rinse (or equivalent). Then offer for recycling or reuse, or for incineration, or, if allowed by state and local authorities, by other procedures approved by state and local authorities.
- METAL:** Triple rinse (or equivalent). Then offer for recycling or reuse, or for incineration, or, if allowed by state and local authorities, by other procedures approved by state and local authorities.

KEEP OUT OF REACH OF CHILDREN

CAUTION

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes, or clothing.

FIRST AID: If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or, if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Keep out of lakes, streams, or ponds. Permits may be required for discharges containing this pesticide into lakes, streams, ponds, or public water. For guidance, contact the regional office of the Environmental Protection Agency.
