Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store away from food and feedstuffs. Handle with care. Store in original container and place in locked storage area. Wear protective clothing and use well-ventillated area. If spilled, wash down with water. May cause skin damage. Do not get on skin, clothing or in eyes. If contact occurs, wash thoroughly.

PESTICIDE DISPOSAL: Securely wrap original container. Rinse thoroughly before discarding in trash.

CONTAINER DISPOSAL: Do not reuse container. Rinse thoroughly before discarding in trash.

GENERAL INFORMATION

This product under field conditions, has shown to be effective in controlling a broad range of algae. Especially effective results have been obtained against Chara (Stone wart), Spirogyra, Cladophora, Vaucheria Ulothrix, Microcystis, Oscillatoria, Mustard Algae and Black Algae. The triethanolamine in this product prevents the precipitation of the copper with the carbonates or bicarbonates in the water.

-SWIMMING POOLS-DIRECTIONS FOR USE

This product is made especially to control growth of aigae in all types of swimming pools. Its long lasting action will control existing aigae and subsequent doses will control recontamination by algae. Treated water can be used immediately...no waiting.

This product comes concentrated. Dilute with at least nine parts of water before applying. Pour projuted amount of this product into plastic watering can, fill with water and sprinkle around edge of pool. Apply initiartreatment to a freshly filled pool or at first usible signs of algae growth.

DILUTION CHART FOR SWIMMING POOLS

Swimming Pool Capacity Gallons of Water	Initial Treatment This Product	Treatment Once Every Two Weeks This Product
5,000	2 ounces	1 ounce
10,000	4 punces	2 ounces
20,000	Bounces	4 ounces
30,000	12 ounces	6 ounces
46,000	16 ounces	8 ounces
50,000	20 ounces	10 ounces
