

US ENVIRONMENTAL PROTECTION AGENCY
OFFICE OF PESTICIDES PROGRAMS
REGISTRATION DIVISION (TS-767)
WASHINGTON, DC 20460

EPA REGISTRATION NO.

7124-102

DATE OF ISSUANCE

June 17, 1993

TERM OF ISSUANCE

NOTICE OF PESTICIDE: REGISTRATION
 REREГИSTRATION

(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

NAME OF PESTICIDE PRODUCT

Maxibrom Slow Dissolving Brominating
Tablets For Swimming Pools

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Alden Leeds, Inc.
55 Jacobus Avenue
South Kearny, NJ 07032

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others. This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A)

provided that you:

1. Submit/cite all data required for registration/ reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. Make the labeling changes listed below before you release the product for shipment:
 - A. Add the phrase, "EPA Registration No. 7124-102" to your label before you release the product for shipment.
 - B. You must change "Inert" in the Ingredient Statement to "Inert Ingredients" and "Active Ingredients" must be singular. You must also total the active and inert ingredients to "100%" as in the following example:

Active Ingredient:
1-Bromo-3-chloro-5,5-dimethylhydantoin..... 92.5%
Inert Ingredients:..... 7.5%
Total..... 100.0%

ATTACHMENT IS APPLICABLE

SIGNATURE OF APPROVING OFFICIAL

DATE

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the labeling is enclosed for your records.

If you have any questions about these comments, please call Bill Wooge at (703) 305-5295.

Sincerely,

Ruth G. Douglas

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide : 7124-102

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. Causes eye and skin damage. Harmful or fatal if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse. Wash thoroughly with soap and water after handling.

PRACTICAL TREATMENT: If swallowed: Seek medical attention promptly. Do not induce vomiting. Do not drink alcohol. Drink at least 8 ounces of water (not to exceed 0.23 oz. per pound in a child).

If on skin: Remove contaminated clothing immediately. Brush off excess chemical and wash skin with large volumes of soap and water, flushing the skin with water for at least 15 minutes. If skin irritation develops, seek medical attention.

For eye contact: Irrigate eyes with large volumes of room temperature water for at least 15 minutes, then seek medical attention promptly.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Do not discharge into lakes, streams, ponds or public water unless in accordance with NPDES permit. For guidance, contact your regional office of EPA.

PHYSICAL AND CHEMICAL HAZARDS: Strong oxidizing agent. Mix only with water. Use clean, dry utensils and equipment. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire and explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, hazardous gases and possible fire and explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area. If necessary, flood with large volumes of water.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

When used as directed, MAXIBROM Tablets are effective as a swimming pool water sanitizer and disinfectant. The filtration system should be in proper working order, the pH adjusted between 7.2 and 7.6, the total alkalinity maintained between 100 and 150 ppm, and the calcium hardness maintained between 150 to 300 ppm.

A bromine or chlorine residual of 1.0 to 2.0 ppm must first be established in the pH adjusted pool. If this is accomplished with a granular hypochlorite product, follow use directions on that product's label. If the residual is established with MAXIBROM Tablets in a brominator, use the brominator at the highest feed rate following manufacturer's recommendations. When the bromine residual reaches 1.0 to 2.0 ppm, adjust the feeder accordingly. To maintain a bromine residual, adjust the brominator feed rate to assure a constant treatment level of 1.0 to 3.0 ppm in residential pools and 3.0 to 5.0 ppm in commercial pools (normally, 30 to 180 grams of this product per 10,000 gallons daily). Each MAXIBROM Tablet weighs about 0.7 oz. (20 grams). Actual use rates will vary depending on organic load and environmental conditions. The regular use of a good test kit will determine if further adjustments are needed. Do not swim in the water if the bromine residual is above 8 ppm.

STORAGE AND DISPOSAL: Keep product dry in tightly closed original container when not in use. Store in a cool, dry, well ventilated area away from heat, open flames, sunlight, and other chemicals. Do not reuse empty container. Rinse empty container thoroughly with water and discard in trash.
