7124-105

DATE OF ISSUANCE
AUG 22 1995

TERM OF ISSUANCE
Conditional

NOTICE OF PESTICIDE: REGISTRATION
 REREGISTRATION
(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

NAME OF PESTICIDE PRODUCT
Poly Clear

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Alden Leeds, Inc.
55 Jacobus Avenue
So. Kearney, NJ 07032

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.

2. Make the labeling changes listed below before you release the product for shipment:

a. Add the phrase "EPA Registration No. 7124-105"

b. Revise the Ingredient statement in the following manner (note spelling):

Active ingredient
Poly (iminoimidocarbonyliminoimidocarbonyl-
iminohexamethylene) hydrochloride.....20.0%
Inert ingredients.....80.0%

c. In the instructions for the Ingestion statement in the Statement of Practical Treatment, insert the sentence "Do not induce vomiting."

ATTACHMENT IS APPLICABLE

SIGNATURE OF APPROVING OFFICIAL

DATE

194

d. Revise the first sentence of the Environmental Hazards statement to read : "This product is toxic to fish and aquatic organisms."

e. Place the signal word "WARNING" beneath "Keep Out of Reach of Children".

3. Submit one copy of your final printed labeling before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely,

Ruth G. Douglas
Product Manager (32)
Antimicrobial Program Branch
Registration Division (7505C)

Enclosures

**PRECAUTIONARY STATEMENTS
HAZARDOUS TO HUMANS AND DOMESTIC ANIMALS**

DANGER: Keep out of reach of children. Corrosive, causes severe eye and skin damage. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food. Rinse empty container thoroughly with water and discard it.

STATEMENT OF PRACTICAL TREATMENT: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eye contact, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

**Treating the Pool
Pools Previously Treated with Chlorinating Chemicals**

Important: PolyCLEAR is compatible with chlorinating chemical products. Consult your authorized Dealer of PolyCLEAR for information on balancing your pool water. **NOTE:** If the pool is an unpainted plaster pool, add 1-1/4 lbs. of CHELATING CRYSTALS per 10,000 gallons after the chlorine has been neutralized, and allow pump/filter to operate for 8-12 hours.

Check with chlorine test kit for free and combined chlorine prior to the beginning of neutralization. To destroy chlorine, add NU-CLO DE CHLOR chlorine neutralizer per label directions or add 1 gallon of PolyShock swimming pool clarifier (27% hydrogen peroxide) per 10,000 gallons of pool water. Filter overnight. Check with chlorine test kit. If free chlorine is detected, repeat neutralizer treatment.

Freshly Filled and Dechlorinated Pools

Start with PolyCLEAR

If the pool water contains algae or is hazy, consult the problem-solving section of the "Pool Care Guide," available from your Authorized Dealer of PolyCLEAR.

- Backwash or clean pool filter. Check pool pH, adjust to 7.2-7.8 if necessary.
- Add to give a content of 50 ppm (1/2 gallon product/10,000 gallons of pool water).
- After 24 hours, check pH and concentration with the test kit and adjust if necessary.

Normal Pool Routine

- Every week, check concentration and pH.
- Maintain concentration at about 50 ppm. If concentration falls 10 ppm or more, add a top-up dose. The level should not be allowed to drop below 30 ppm. For example, to raise the level 10 ppm, add 1 pint per 10,000 gallons of water.

NOTE: THIS PRODUCT AND CHLORINE ARE INCOMPATIBLE.

Problem Solving and Supplemental Pool Information

Do not use in freestanding spas/hot tubs. Do not use in unpainted plaster pools previously exposed to metals which may cause staining.

PolyCLEAR is not compatible with many detergents and some supplemental algacides (such as those based on copper).

STORAGE AND DISPOSAL

Keep container closed when not in use. Store in original container in an area inaccessible to children. PROTECT FROM FREEZING.

In case of a leak or a spill, soak up with absorbent, such as sand, earth, or sawdust, and shovel into waste container. Remove waste to chemical waste area, and dispose of in accordance with local pollution regulations.

PESTICIDE DISPOSAL: To dispose of excess product, securely wrap original container in several layers of newspaper and discard in trash.

CONTAINER DISPOSAL: Do not reuse container. To dispose of empty container, rinse thoroughly before discarding in trash.
