 AND FIRST AID TREATMENT

Active Ingredient: Poly  
 (iminoimidocarbonyliminoimido-  
 carbonyliminohexamethylene)  
 hydrochloride ..... 20.0%  
 Inert Ingredients ..... 80.0%

NET CONTENTS  
 1/2 GALLON  
 (64 Fl. Oz.)

### PRECAUTIONARY STATEMENTS

#### HAZARDOUS TO HUMANS AND DOMESTIC ANIMALS

**DANGER:** Keep out of reach of children. Corrosive, causes severe eye and skin damage. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food. Rinse empty container thoroughly with water and discard it.

**STATEMENT OF PRACTICAL TREATMENT:** In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eye contact, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink large quantities of water. Do not induce vomiting. Avoid alcohol. Call a physician immediately.

**NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage.

**ENVIRONMENTAL HAZARDS:** This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

### DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

PolyClear Maxipolish is a powerful cationic polymeric sanitizer which enables you to sanitize your pool without chlorine or bromine. When used as directed, your pool will stay bacteria and algae free. This product is designed to be used in conjunction with the PolyClear Non-Chlorine System.

- **SANITIZES**
- **NO CHLORINE ODOR OR CHLORINE IRRITATION**
- **NO BLEACHING OF POOL SURFACES OR SWIMWEAR**
- **EASY TO USE**

#### TREATING THE POOL:

Pools Previously Treated with Chlorinating Chemicals

**POLYCLEAR IS INCOMPATIBLE WITH CHLORINATING CHEMICAL PRODUCTS.** Consult your authorized Dealer of PolyClear for

#### STORAGE AND DISPOSAL

Keep container closed when not in use. Store in original container in an area inaccessible to children.

**PROTECT FROM FREEZING.**

In case of a leak or a spill, soak up with absorbent, such as sand, earth, or sawdust, and shovel into waste container. Remove waste to chemical waste area, and dispose of in accordance with local pollution regulations.

information on balancing your pool water. If the pool is an unpainted plaster pool, add 10 oz. of PolyQuest per 10,000 gallons after the chlorine has been neutralized, and allow pump/filter to operate for 8-12 hours. Check with chlorine test kit for free and combined chlorine prior to the beginning of neutralization. To destroy chlorine, add chlorine neutralizer per label directions or add 1 gallon of PolyShock swimming pool clarifier (27% hydrogen peroxide) per 10,000 gallons of pool water. Filter overnight. Check with chlorine test kit. If free chlorine is detected, repeat neutralizer treatment.

#### INITIAL DOSE:

##### Freshly Filled and Dechlorinated Pools

If the pool water contains algae or is hazy, consult the problem-solving section of the PolyClear Manual, available from your PolyClear dealer. Backwash or clean pool filter. Check pH; adjust to 7.2-7.8 if necessary. Add 1/2 gallon of this product to 10,000 gallons of pool water to achieve a concentration of 50 ppm. After 24 hours, check pH and concentration with the test kit and adjust if necessary.

#### MAINTENANCE DOSE:

##### Normal Pool Routine

Every week, check concentration and pH. Maintain concentration at about 50 ppm. Add at the rate of 1 pint (16 oz.) per 10,000 gallons of water to raise the concentration 10 ppm. The level should not drop below 30 ppm.

#### PROBLEM SOLVING AND SUPPLEMENTAL POOL INFORMATION

**NOTE: THIS PRODUCT AND CHLORINE ARE INCOMPATIBLE.**

Do not use in freestanding spas/hot tubs. Do not use in unpainted plaster pools previously exposed to metals which may cause staining. PolyClear is not compatible with many detergents and some supplemental algaecides (such as copper based).
