READY TO USE

# penta reservative

PRESERVES WOOD,  
CONTROLS FUNGAL ROT, DECAYS.

ACTIVE INGREDIENTS 100.00%  
Pentachlorophenol 4.25%\*  
Other Chlorophenols and Related Compounds .75%\*  
Petroleum Hydrocarbons 95.00%

\*5% of Technical Pentachlorophenol as defined  
in Federal Specification TT-W-570

### WARNING!

KEEP OUT OF REACH OF CHILDREN.  
IF SWALLOWED OR ABSORBED THROUGH SKIN,  
COMBUSTIBLE. SKIN AND EYE IRRITANT.  
See other warnings on back panel Use only as directed

ONE GALLON 3.785 LITERS

### READY TO USE PENTA PRESERVATIVE

#### DIRECTIONS

**Wood Preservation:** In treating new construction lumber, individual members should be soaked in Penta Preservative for at least 3 minutes per inch of thickness. All joints and ends of boards should receive particularly thorough treatment. Treated wood cannot be painted. Do not nail wallboard or other absorbent materials over treated wood until completely dry.

On existing structures Penta Preservative will control fungal rots and decay only. Wood not in contact with the ground such as frames, sub-floors, sills, joists, etc., should be given 2 applications by swabbing or brushing.

Fence posts should be peeled, seasoned, and soaked for at least 24 hours and preferably 48 hours in a vertical position with butts down. The best treatment is full length coverage; if butt treatment is used, set with 12 inches of treated wood extending above ground level.

the top quality  
of sunnyside

### Ready To Use PENTA PRESERVATIVE

Sunnyside Penta Preservative can be applied to lumber, poles, posts and other wood products. When used according to directions, it gives lasting protection against decay, mold, termites, powder post beetles and other wood-boring insects. Surfaces that will be further finished with paint, varnish, stain, etc., should be treated with Sunnyside Penta Water Repellent rather than Ready To Use Penta Preservative. Pines, red oak, basswood, black gum and ash take treatment well; aspen and cottonwood do not.

**CAUTION!** CONTAINS TECHNICAL PENTACHLOROPHENOL AND PETROLEUM DISTILLATE. If swallowed, do not induce vomiting. CALL PHYSICIAN IMMEDIATELY.

Keep away from heat and open flame. Do not breathe vapor or spray mist. Do not get in eyes, on skin, or on clothing. Wash thoroughly after handling. In case of contact with skin or eyes, flush repeatedly with copious amounts of water. Get medical attention. Close container after each use. Do not transfer contents to bottles or other unlabeled containers. Do not reuse empty container. Destroy it by perforating or crushing. Bury or discard in a safe place.

This product is toxic to fish and wildlife. Keep out of lakes, streams and ponds. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

Do not use treated wood inside dairy barns, silos or other structures where it may contact food, feed or livestock.

NOTE -- protective clothing and rubber gloves should be worn when handling freshly treated lumber.

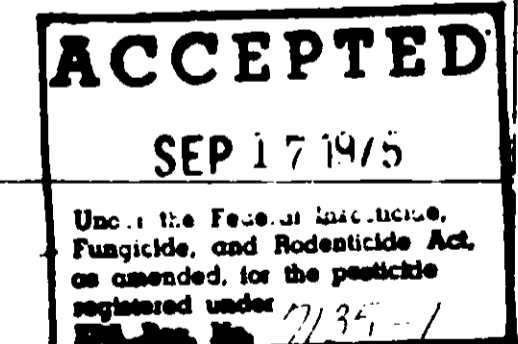

Protect grass, leafy plants and vegetation from contact with Ready to Use Penta Preservative.

Use only with adequate ventilation.

KEEP OUT OF REACH OF CHILDREN.
