

DIRECTIONS

To operate remove protective cap from top of can. Hold can upright, about 4 to 6 inches from dog's hair. Point opening on side of valve in desired position for spray. To release spray press down on valve. Move the bomb over the entire dog, using a "zig-zag" motion, until the coat is slightly damp. It may be advantageous, especially on long-haired dogs, to rub the hand against the lay of hair, spraying into the ruffled hair directly behind the hand. 30 to 45 seconds of spraying is usually sufficient to treat a 30-lb. dog. Repeat treatment as necessary. Do not use more often than once every 7 days.

Thoroughly spray interior of dog kennel or other sleeping quarters. Also spray bedding and replace with fresh bedding if necessary.

Apply in a similar manner to cats but spraying on the basis of a 4- to 6-second application to a 5-pound cat.

This bomb makes a slight hissing sound and causes a cool sensation. This is temporary. Nervous dogs may become frightened the first time this bomb is used but soon become accustomed to the treatment

C O N T E N T S**Active Ingredients:**

Pyrethrins	0.06%
2, 2' Thiobis (4-chloro-6-methylphenol)	0.10%
2, 3:4, 5-Bis (2-butylene) tetrahydro-2-furaldehyde	0.24%
*Technical Piperonyl Butoxide	0.48%
Malathion (0, 0-dimethyl dithiophosphate of diethyl mercaptosuccinate)	0.50%
Petroleum Distillate	23.62%

Inert Ingredients:

75.00%

*Equivalent to 0.384% (butylcarbityl) (6-propyl piperonyl) ether and 0.096% related compounds.

CAUTION: KEEP AWAY FROM CHILDREN. Harmful if swallowed. Avoid breathing mist. Do not contaminate foodstuffs. Avoid prolonged or repeated contact with skin; wash thoroughly after using.

CAUTION: Apply sparingly to cats, puppies and kittens, spraying only on the back. Excessive application may cause toxic reaction. Store in cool, dry place.

WARNING: Do not store above 120° F. Never puncture container nor throw into fire.
