

(NAME)

Super Algisea
for sparkling water

ACTIVE INGREDIENTS:

n-Alkyl (60% C₁₄, 30% C₁₆, 5% C₁₂, 5% C₁₈)
Dimethyl Benzyl Ammonium Chloride ----- 25%
n-Alkyl (50% C₁₂, 30% C₁₄, 17% C₁₆, 3% C₁₈)
Dimethyl Ethyl Benzyl Ammonium Chloride----- 25%

INERT INGREDIENTS: ----- 50%

CAUTION: KEEP OUT OF THE REACH OF CHILDREN.

Avoid getting the concentrate into the eyes. In case of contact wash immediately with water. If irritation persists, get medical attention. Concentrate harmful if swallowed.

DIRECTION FOR USE:

INITIAL TREATMENT - Use 6 ounces of Super Algisea for each 10,000 gallons of pool water or 1 gallon for each 250,000 gallons of water.

FOLLOW UP TREATMENT - Add 1.5 ounces for each 10,000 gallons of water or 1 quart per 250,000 gallons of water on a weekly basis. If high temperatures prevail or pool has unusually heavy use, add more frequently.

Super Algisea is an outstanding algae growth depressant in all types and sizes of pools. When used as directed it will control and prevent development of black algae. It helps eliminate and prevent odors from confined water. Super Algisea is fully compatible with the usual water treating chemicals. By controlling algae growth with Super Algisea the chlorine demand in the pool may be reduced. Super Algisea contains no heavy metals such as mercury and copper and is non-corrosive to rubber or metal pool parts.
