## DIRECTIONS FOR USE Sanitizer for Swimming Pools

It is a violation of Federal Law to use this product in a manner inconsistent with its label. After filling or at the start of each season, the pool water should be adjusted for pH (7.2-7.6) using pH control agents (Minus, Plus & Alka/Lite) as directed. Initially, two (8 oz.) cups of SEA/CHLOR per 5,000 gallons of pool water is added to develop the proper chlorine level of 1-2 ppm. To prevent chlorine decomposition and provide a balanced, economical pool sanitation program, Stabilizer is added according to label instructions. Further Sanitizer addition should be made to continue chlorine level activity at 1-2 ppm as required.

### HOW TO MAINTAIN THE PROPER CHLORINE RESIDUAL

The available chlorine content of the swimming pool should be maintained between 1.0-1.5 ppm. Under normal conditions, this can be maintained by daily addition of 2.7 oz. (1/3 cup) of SEA/CHLOR for each 5,000 gallons of pool water. Severe conditions such as high temperature, excessive use by many people will require higher daily dosage than the smaller dose in the spring and fall when there isn't any bathing activity.

The pool water should be superchlorinated once a week or better. Five times the normal addition, or a minimum of one cup (eight ounces) per 50,000 gallons of pool water should be added in the evening when the pool is not in use for a minimum of 12 hours. If chlorine residual is above 2 ppm, usage of the pool should not be permitted until it is decreased. Reentry into treated pools is prohibited above levels of 3 ppm due to risk of bodily injury.

### STORAGE AND DISPOSAL

Do not contaminate food or feed by storage, disposal or cleaning of equipment.  
**Pesticide Storage:** Store this product in a cool dry area, away from direct sunlight and heat to avoid deterioration.  
**Pesticide Disposal:** In case of spill, flood areas with large quantities of water. Product or rinsates that cannot be used should be diluted with water before disposal in a sanitary sewer.  
**Container Disposal:** Do not reuse empty container but place in trash collection.
