

US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (75-767) WASHINGTON, DC 20460	EPA REGISTRATION NO. <b>7152-21</b>	DATE OF ISSUANCE <b>SEP 27 1994</b>
	TERM OF ISSUANCE	
NOTICE OF PESTICIDE: <input type="checkbox"/> REGISTRATION <input checked="" type="checkbox"/> REREGISTRATION (Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)	NAME OF PESTICIDE PRODUCT <b>Seaboard Stabilized Chlorinating Granules</b>	
NAME AND ADDRESS OF REGISTRANT (Include ZIP code)		
Seaboard Industries 185 Van Winkle Avenue Hawthorne, NJ 07507		
NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.		
On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.		
A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.		
Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.		
Based on your response to the Reregistration Eligibility Document, EPA has reregistered the above named product subject to the comments recorded in the succeeding paragraph. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.		
Make the following labeling changes before you release the product for shipment:		
<ol style="list-style-type: none"> <li>1. Refer to the enclosed Attachment A for the necessary revisions to the Precautionary Statements for the subject product.</li> <li>2. Under Environmental Hazards revise the first sentence to read: "this pesticide is toxic to fish and aquatic organisms".</li> </ol>		
<input type="checkbox"/> ATTACHMENT IS APPLICABLE		
SIGNATURE OF APPROVING OFFICIAL		DATE

A stamped copy of the product label is enclosed for your records.

Submit one copy of the final printed labeling before releasing the product in channels of trade with the revised labeling.

Submit a revised Confidential Statement of Formula. The nominal concentration of 99% should fall between the upper and lower certified limits. You may list the lower certified limit at 98%.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

Attachment A - Batch 26 Products

Labeling:

1. The signal word is "Danger".

2. The Precautionary Statements should read:

"Corrosive: Cause irreversible eye damage. May be fatal if inhaled. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin or on clothing. Do not breathe dust, vapor or spray mist. Wear goggles, face shield or safety glasses. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse".

3. The Statements of Practical Treatment should read:

"If in eyes: Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Get medical attention".

"If inhaled: Remove victim to fresh air. If not breathing, give artificial respiration preferably mouth-to-mouth. Get medical attention".

"If on Skin: Wash with plenty of soap and water. Get medical attention if irritation persists".

"If swallowed: Drink promptly large quantities of water. Avoid alcohol. Note to physician: Probable mucosal damage may contraindicate the use of gastric lavage. Get medical attention".

ACCEPTED  
with COMMENTS  
in EPA Letter Dated:

SEP 27 1994

Under the Federal Insecticide  
Fungicide and Rodenticide Act  
administered by the EPA, this product  
registered under EPA Reg. No.

7152-21

### PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**DANGER:** Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

**PRACTICAL TREATMENT (First Aid):** If swallowed, feed bread soaked in milk followed by olive oil. Call a physician immediately. If on skin: Brush off excess chemical and flush with cold water for at least 15 minutes. If irritation persists, get medical attention. If in eyes: Flush with cold water for at least 15 minutes. Get medical attention.

**ENVIRONMENTAL HAZARDS:** This product is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

**PHYSICAL AND CHEMICAL HAZARDS STRONG OXIDIZING AGENT:** Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction, with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion.

#### **SPECIAL PRECAUTIONS PLEASE READ BEFORE OPENING CONTAINER; PREVENTION OF PHYSICAL INJURY:**

1. This product emits a powerful chlorine gas. Do not open container indoors. Hold away from face when opening to avoid breathing fumes. 2. This product is dangerous when not used properly. Misuse may result in serious injury requiring hospitalization, related complications may lead to death. Do not mix with any other chemicals. Mixing with other chemicals may cause a violent and instantaneous chemical reaction. Do not add water to this product. Do not add this product to water in a pail. Do not take advice from others. Do not experiment. Follow label instructions exactly. Reentry into treated swimming pool/spas is prohibited above levels of 3 ppm of chlorine.

TO OPEN: Place coin in groove, pry and lift off.  
TO CLOSE: Place lid on container, press edges down snapping lid on.

**DIRECTIONS FOR USE**

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

**DIRECTIONS FOR NEWLY FILLED POOLS**

When starting up a new pool, superchlorinate to satisfy chlorine demand and to establish a chlorine residual of 1.0 ppm to 1.5 ppm available chlorine. Add 2 oz. of this product per 1,000 gallons which will provide 9.8 ppm available chlorine. Test with a reliable chlorine test kit. Bathers should not be allowed to enter the pool until the chlorine residual has dropped to 3 ppm or less. The next morning add Conditioner and Stabilizer (cyanuric acid), according to the directions on the label, to stabilize the pool. **STABILIZED CHLORINATING GRANULES** should be added daily or as needed at the rate of 1/4 to 1/2 oz. per 1,000 gallons of pool water to maintain a chlorine residual at all times of 1.0 ppm to 1.5 ppm as determined by a suitable test kit. The pH should be maintained between 7.2 and 7.6. Proper dosage should be broadcast over deep end of pool. Apply dosage directly to pool water. Do not mix in pail. A shock treatment should be made every week during hot weather or after heavy rains. Less frequent shock treatments may be made during cool weather. For the shock treatment, add 2 oz. of **STABILIZED CHLORINATING GRANULES** per 1,000 gallons of pool water. Swimmers should not be permitted in the pool after the shock treatment until the chlorine residual falls to 3 ppm or less. Keep in mind that a slight flexibility must be maintained in the event of heavy accumulations of dust and dirt caused by storms or super-heavy bathing loads which require additional dosages as needed to maintain the chlorine residual between 1.0 ppm and 1.5 ppm.

**STORAGE AND DISPOSAL:** Keep product dry in tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. In case of decomposition isolate container in open area if possible, and flood with large amounts of water. Do not reuse empty container. Rinse empty container thoroughly with water to dissolve all material before discarding. Place in trash collection or dispose in approved landfill area. Do not contaminate feed, food or water by storage or disposal.
