

**ACCEPTED**  
 7152-31  
 JUN 17 1980  
 Under the Federal Insecticide,  
 Fungicide, and Rodenticide Act,  
 as amended, for the pesticide  
 registered under  
 EPA Reg. No.

**PRECAUTIONARY STATEMENTS  
 HAZARDS TO HUMANS AND  
 DOMESTIC ANIMALS**

**DANGER:** Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

**ENVIRONMENTAL HAZARDS:** This product is toxic to fish. Do not discharge into lakes, streams, ponds, or public waters unless in accordance with an NPDES Permit. For guidance, contact the regional office of EPA.

**PHYSICAL AND CHEMICAL HAZARDS**  
**STRONG OXIDIZING AGENT**  
 Oxidizing Agent. Mix only with water. Do not mix with other oxidizing agents. Do not add this product to other containers containing chemicals. Mixing with other chemicals may cause a violent reaction. May cause an explosion if contained with certain materials. May react with other chemicals to form a highly explosive or other hazardous reaction. May react with general household materials to form hazardous gases and products. May cause an explosion if mixed with certain materials. Do not use in confined spaces. Do not use in containers with large openings.

**TABLETS**

Active ingredient: lithium hypochlorite 29%  
 Inert ingredients 71%

Contains 3% available chlorine 100%

**KEEP OUT OF REACH OF CHILDREN  
 DANGER**

**SEABOARD  
 INDUSTRIES**

**DIRECTIONS FOR USE**

**General Classification:** This classification of Federal Registration is not inconsistent with that of the manufacturer.

**HOW TO USE SEA/CHLOR:** After filling or at the start of a water supply, adjust for pH control agents (Minus). P. directed initially, 1 lb. of SEA/CHLOR per 1000 gallons of pool water is a proper chlorine level of 1.2 ppm. The decomposition and production of pool sanitation should be added according to label directions. Addition should be made to maintain a level of 1.2 ppm as required.

**HOW TO MAINTAIN CHLORINE RESERVE:** The available chlorine content of pool should be maintained by normal conditions. This is done by adding a small amount of SEA/CHLOR to the pool water supply. High temperature, high pH, and high chlorine demand will require higher than normal use of SEA/CHLOR. The pH level should be maintained between 7.2 and 7.6. If the pH level is above 7.6, the chlorine demand will be increased. If the pH level is below 7.2, the chlorine demand will be decreased.

**STORAGE AND DISPOSAL:** Store in a cool, dry place. Do not store in a confined space. Do not store near heat, fire, or other oxidizing agents. Do not store in a container that has been used for other chemicals. Do not store in a container that has been used for other chemicals. Do not store in a container that has been used for other chemicals.

 7152-31  
 JUN 17 1980  
 Under the Federal Insecticide,  
 Fungicide, and Rodenticide Act,  
 as amended, for the pesticide  
 registered under  
 EPA Reg. No.

**STATEMENTS  
 TO HUMANS AND  
 ANIMALS**

**Irritation:** Causes skin  
 irritation if swallowed. Do not  
 inhale. Wear goggles or  
 eye protection when handling. Avoid  
 breathing dust. Wash contaminated  
 clothing before reuse.

**First Aid:** This product is  
 not to be used in lakes, streams,  
 or ponds in accordance with  
 label directions. Avoid contact with  
 humans and animals.

**Chemical Hazards:**  
 Oxidizing. Strong Oxidizing  
 Agent. Use clean dry utensils  
 and dispensing device.  
 Do not mix with other products.  
 Such mixing may lead to fire or  
 explosion. Avoid moisture. Do not  
 use in confined spaces. Do not  
 heat. Do not use in the  
 operation of fire arms.  
 Avoid contact with eyes.  
 If possible, wear protective  
 clothing and equipment.  
 Wash thoroughly if contact  
 is necessary.

**PRACTICAL TREATMENT:** For use in swimming pools, use 1/2 lb. of tablets per 10,000 gallons of water. For use in hot tubs, use 1/4 lb. of tablets per 1,000 gallons of water. For use in spas, use 1/4 lb. of tablets per 1,000 gallons of water. For use in ponds, use 1/2 lb. of tablets per 10,000 gallons of water. For use in lakes, streams, or ponds, use 1 lb. of tablets per 10,000 gallons of water. For use in fountains, use 1/4 lb. of tablets per 1,000 gallons of water. For use in waterfalls, use 1/4 lb. of tablets per 1,000 gallons of water. For use in swimming pools, use 1/2 lb. of tablets per 10,000 gallons of water. For use in hot tubs, use 1/4 lb. of tablets per 1,000 gallons of water. For use in spas, use 1/4 lb. of tablets per 1,000 gallons of water. For use in ponds, use 1/2 lb. of tablets per 10,000 gallons of water. For use in lakes, streams, or ponds, use 1 lb. of tablets per 10,000 gallons of water. For use in fountains, use 1/4 lb. of tablets per 1,000 gallons of water. For use in waterfalls, use 1/4 lb. of tablets per 1,000 gallons of water.

**SEABOARD  
 INDUSTRIES**

**DIRECTIONS FOR USE**

**General Classification:** This product is a strong oxidizing agent. It is highly corrosive to metals and may cause severe skin burns and eye damage. It is also a strong irritant to the respiratory tract. It should be handled with care and used in accordance with the label directions.

**HOW TO USE SEA/CHLOR TABLETS**

At the start of each season, adjust the water level in the pool to the proper level. Add the proper amount of Sea/Chlor tablets to the pool. The amount of tablets to be added depends on the size of the pool and the amount of water in the pool. For example, for a 10,000 gallon pool, add 1/2 lb. of tablets. For a 1,000 gallon pool, add 1/4 lb. of tablets. For a 1,000 gallon hot tub, add 1/4 lb. of tablets. For a 1,000 gallon spa, add 1/4 lb. of tablets. For a 10,000 gallon pond, add 1 lb. of tablets. For a 10,000 gallon lake, stream, or pond, add 1 lb. of tablets. For a 1,000 gallon fountain, add 1/4 lb. of tablets. For a 1,000 gallon waterfall, add 1/4 lb. of tablets. For a 1,000 gallon swimming pool, add 1/2 lb. of tablets. For a 1,000 gallon hot tub, add 1/4 lb. of tablets. For a 1,000 gallon spa, add 1/4 lb. of tablets. For a 10,000 gallon pond, add 1 lb. of tablets. For a 10,000 gallon lake, stream, or pond, add 1 lb. of tablets. For a 1,000 gallon fountain, add 1/4 lb. of tablets. For a 1,000 gallon waterfall, add 1/4 lb. of tablets. For a 1,000 gallon swimming pool, add 1/2 lb. of tablets. For a 1,000 gallon hot tub, add 1/4 lb. of tablets. For a 1,000 gallon spa, add 1/4 lb. of tablets.

**HOW TO MAINTAIN THE PROPER  
 CHLORINE RESIDUAL**

Chlorine levels should be maintained between 1.0 and 1.5 ppm. Test the water daily with a chlorine test kit. If the chlorine level is below 1.0 ppm, add more tablets. If the chlorine level is above 1.5 ppm, add more water. For example, for a 10,000 gallon pool, add 1/2 lb. of tablets. For a 1,000 gallon pool, add 1/4 lb. of tablets. For a 1,000 gallon hot tub, add 1/4 lb. of tablets. For a 1,000 gallon spa, add 1/4 lb. of tablets. For a 10,000 gallon pond, add 1 lb. of tablets. For a 10,000 gallon lake, stream, or pond, add 1 lb. of tablets. For a 1,000 gallon fountain, add 1/4 lb. of tablets. For a 1,000 gallon waterfall, add 1/4 lb. of tablets. For a 1,000 gallon swimming pool, add 1/2 lb. of tablets. For a 1,000 gallon hot tub, add 1/4 lb. of tablets. For a 1,000 gallon spa, add 1/4 lb. of tablets.

**STORAGE AND DISPOSAL**

Store in a cool, dry place. Do not store in a confined space. Do not store near heat or fire. Do not store near food or feed. Do not store near children or pets. Do not store near swimming pools, hot tubs, spas, ponds, lakes, streams, or ponds. Do not store near fountains, waterfalls, swimming pools, hot tubs, spas, ponds, lakes, streams, or ponds. Do not store near fountains, waterfalls, swimming pools, hot tubs, spas, ponds, lakes, streams, or ponds. Do not store near fountains, waterfalls, swimming pools, hot tubs, spas, ponds, lakes, streams, or ponds. Do not store near fountains, waterfalls, swimming pools, hot tubs, spas, ponds, lakes, streams, or ponds.
