Attention: Carl Rauschenbach
 President

Subject: Product Name: Algi-Cide
 EPA Registration No. 7152-32
 Your Amendment Dated January 7, 1994

The amendment (label update and revised CSF) referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable provided that you:

1. Make the following labeling changes below before you release the product for shipment bearing the amended labeling.

a. Revise the referral statement to read: See back panel for additional precautionary statements.

b. Delete the word: First Aid.

c. Include the following additional subheadings:

Container Disposal
 Pesticide Disposal

Add these heading to the Storage and Disposal section.

d. Delete the word: prevent

e. For consistency, revise the total percentage to read: 100.00%.

f. Add the following to the front panel:

A Swimming Pool Algaecide

CONCURRENCES

SYMBOL	SURNAME	DATE						

2. A release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.
3. A stamped copy of the labeling is enclosed for your records.
4. The submitted Confidential Statement of Formula (dated January 7, 1994) is acceptable. Note also that this confidential will supersede all previous confidentials.

However note for future reference that the upper certified limit (Block 14a) should be around 5.25% and the lower certified limit (Block 14b) should be around 4.75% for this product.

If you have any questions concerning this letter, contact V. Goncarovs at 703-305-6663.

Sincerely,

Marshall Swindell
Acting Product Manager (31)
Antimicrobial Program Branch
Registration Division (H7505C)

Algi-Cide Liquid controls the growth of microscopic plants called algae which thrive in warm, sunlit pools. It is algae that turns the water green and produces odors that make swimming unpleasant. This condition is controlled by the addition of Algi-Cide at periodic intervals throughout the swimming season to prevent algae from growing. It is important to note that small amounts of Algi-Cide added at regular intervals will do a better job for algae prevention control than large amounts added only where algae has become a nuisance.

DIRECTIONS FOR USE

* It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

To maintain water clarity and freshness, and control algae slime, use an initial dose of one gallon Algi-Cide per 25,000 gallons of water. Use proportionate amounts of Algi-Cide for other pool gallonage amounts. Use initial dose when filling the pool or at beginning of swimming season. If visible algae are present after initial application, vacuum pool after 24 hours to remove algae debris. If visible algae are still present, or should reappear, repeat treatment procedure as necessary. When pool is free of visible algae, proceed to use the recommended maintenance dose of 1 quart per 25,000 gallons of water at 3 to 5 day intervals. During hot, summer weather, or with heavy bather loads, more frequent additions of Algi-Cide may be necessary.

Each time the pool is drained and refilled, repeat initial dose. If makeup water is added to the pool, add one quart of Algi-Cide for every 5,000 gallons.

Add Algi-Cide directly to pool water at various points, or add through the filter. Never mix pool chemicals together.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Keep out of reach of children. Corrosive. Harmful to fish. If swallowed, causes severe eye and skin damage. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Wash thoroughly with soap and water after handling. Avoid contamination of food.

STATEMENT OF PRACTICAL TREATMENT

FIRST AID: If swallowed, promptly drink a large quantity of milk, egg whites, or gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Call physician immediately. In case of external contact, flush eyes and/or skin with plenty of water for at least 15 minutes. Get medical attention. Remove and wash contaminated clothing before re-use.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. ~~Algi-Cide is a strong irritant. Shock, respiratory depression and convulsions may be expected.~~

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL

Keep container closed when not in use. Leaking or damaged containers should be placed in a plastic bag and discarded in trash. Mop up spills with clean water. Do not reuse empty container. Securely wrap in several layers of newspaper and discard in trash.
